As far back as the introduction of steam, navigation of the ocean, mighty efforts were made to produce a remedy which would benefit men and women in certain ailments, more common to-day than they were fifty years ago. The troubles we refer to are nervous debility, sleeplessness, headaches, moroseness, melancholia, tired brain, together with their dreaded followers, dyspepsia and indigestion. Remedies without number have been introduced under various names, each one trumpeted forth as the best. Suffering humanity, however, was never permanently benefited until that great discovery of Prof. Phelps—Paine's Celery Compound—was given to the world. It is true that for a time its use was somewhat restricted and slow; but as soon as its advantages, its power, its great efficacy became known to all thinking and intelligent people, it at once rushed to the front; and by its use, the great desire of all sufferers has been more than realized. It has in every case raised the weak and nervous sufferer to health and strength. It has given an assurance of new life to the despondent and morose sufferer, and spread joy, peace and pleasure in its train. Paine's Celery Compound is in very truth the consummation and completion of medical skill, and must ever prove mankind's great benefactor. made to produce a remedy which would

Drygoods and Clothing House were endeavoring to get someone to take their money for the bargains that are ticketed so temptingly low at the spring clearance sale. R. Walker & Sons are among the largest buyers of drygoods, carpets and tweeds in Canada, and were recently tempted by very low prices to buy a large stock, consisting of mantles, dress goods, silks, carpets, tweeds, prints, table linens and hosiery; gloves, handkerchiefs as well as laces and ribbons, and are now rushing off the entire stock of old and new goods at bargain rates. The hum and bustle of this busy establishment just now make one think of fair time, and the happy fuces of the buyers are a sure indication that their greatest expectations as to low prices have been fully realized.

The most common ailment which afflicts the mass of mankind is rheumatism, depriving many of work and support, and torturing them with acute pains. No remedy has been more successful in the prompt and permanent cure of this malady than St. Jacobs Oil. Physicians say so. Many of them use it in their practice.

THE STREETS OF TORONTO ARE dirty enough, but the boulevards are left altogether out in the cold and are a disgrace to the city authorities. The people who specially pay for asphalt roadways and stone sidewalks should not be expected to keep the boulevards in tidy order. The Engineer says: "There is no appropriation for that work," and the people ask "Why not?" Because, the appearance and character of the city are at stake, in view of the great number of strangers about to visit Toronto.
