It would have been a pretty state of affairs had the agreement gone through as it was, enabling the Street Railway Company to knife the eight-ticket-for-a-quarter clause. Fulfilling the letter of the agreement by sell-ing tickets in the central office at the specified price, they could render the whole thing abortive by refusing to sell tickets at such a price on the cars. The protest of Solicitor Kingsmill 'showed clearly the hidden purpose of the company. This one discrepancy in the agreement was fortunately discovered, but experience discovered, but experience fortunately prepares us for the discovery of others when it is too late to correct them. pointment has occurred owing to the in-ability of the Deer Park Club to place a team in the field. This makes the second time this year that Deer Park has disappointed the East Torontos, who have ever made it a point to keep all their engagements and have always given sufficient notice when com-pelled to forego any firture. As a conse-quence, only one game takes place on Satur-day, which will be played on the home ground. Reseadle will be met for the third and last time this year. The game com-mences sharp at 2 p.m.
