RAINY RIVER DISTRICT FIRE

ONE WOMAN AND FOUR CHILDREN BURNED TO DEATH.

The Bush Fire spread from Minnesota to Canada, settlers burned out and several lives reported lost—Wind gives the flames another start—388 of the 400 known dead are recovered.

Winnipeg, Man., Sept. 5.—Fire is burning on both sides of Rainy Lake and along Rainy River. Large tracts of timber have been burned on the Canadian side. A woman and four children were burned to death. The fire jumped the Rainy River from the Minnesota to the Canadian side. All settlers back from Rainy River have been burned out, losing everything, and several lives have been lost.

Escaped the Flames Another Wet Blankets
A late report from Bruce says the little village was completely enveloped by the forest fire that has been surrounding the place for several days. The people escaped by running to the creek, covering themselves with wet blankets, and allowing the flames to sweep over them.

211 East, 388 Bodies Recovered.
So far 288 bodies have been recovered at Hickey. Four hundred and twenty-one persons are known to have been lost in the burned district, which includes Sandstone.

150 Firefighters Cremated.
Duluth, Minn., Sept. 5.—It is reported that the settlement of Sand Lake, nine miles west of Hickey, containing about 1000 Finns, is wiped out. It is so the people are probably dead.

Bodies of 23 Settlers Found.
Duluth, Sept. 5.—A party of 30 explorers left here yesterday to go to the country on both sides of the Rainy River. They were to search for bodies of settlers scattered over a wide extent of country. Nothing but a good wind is needed to fan the forest fire around Carlton, a place of 1000 people, 22 miles from here, to the northern Pacific into a blaze that will destroy the place. At Barran, 40 miles south of the Duluth, the people spent the day in wetting the grass and brush around the saw mill and then back to Hickey.

Not a Foot of Unburned Land in 30 Miles.
Aiken, Minn., Sept. 5.—Fire are around three miles of this town, and the Fire Department has hard work. One boy is reported burned to death from the Township of Norway. The fire has not a foot of unburned land from Aiken to Millie Lakes, 20 miles south.

Wind Gives the Flames Another Start.
Ashland, Wis., Sept. 5.—Chief Scott of the Ashland fire department says that a gust of wind yesterday afternoon, causing considerable excitement and apprehension, blew the fire from the north side of Ashland very plainly. It is dangerous to the city. A fire started on the north side of Ashland yesterday afternoon. The most critical position of the fire was between 11 and 12 o'clock. The wind was strong and the fire broke out in a number of places. Once burning over does not seem to prove effective in stopping it.

Fire's Still Raging at Chippewa Falls.
Chippewa Falls, Wis., Sept. 5.—Fire are still raging among the immense pine land tracts owned by the Cornell University at Cornell Lake, 15 miles from here.

More Wisconsin Towns Threatened.
Ashland, Wis., Sept. 5.—The fire broke out in a new spot yesterday, threatening the town of Oshkosh, an Indian village on the south shore of Lake Superior. It is probable that the Indians have all found places to go. Navigation on the south shore of Lake Superior and in Chequamegon Bay, between Ashland, Washburn and Bayfield has practically ceased. The fire is the latest town reported to be burning. It is a lumbering village located on the south shore of Lake Superior, midway between Ashland and Duluth.

Two Michigan Villages in Danger.
Manistowic, Mich., Sept. 5.—The villages of South Manistowic and Thompson are endangered by a fire in the forest fire in this vicinity.

Lumbering Operations Will Be Brist.
Duluth, Minn., Sept. 5.—John F. Kilbride, manager of the Swan River Logging Company, says that the lumbering operations have been practically suspended. It has been burned over before it is ruined, as it must be cut this season to be of any value whatever. The lumbering companies that have been burned out are estimated to be not less than 800,000,000 feet was burned over, some of it so badly it cannot be cut, but most of it is so badly it is not worth cutting. It is estimated that it is worth about 100,000,000 feet. The loss of standing pine timber cannot be less than 700,000,000 or 800,000,000 feet. On the eastern railroad 100,000,000 feet of lumber has been destroyed, while to the east the Diamond Match Company lost 200,000,000 feet. Many owners have lost from ten to fifty million feet, which will have to be put in at once to save it. Already there is a demand for pine wood, and higher wages are being offered.

Minneapolis Bonnets \$60,000.
Minneapolis, Minn., Sept. 5.—Minneapolis has subscribed \$15,000 and three times that amount in supplies, such as number provisions and clothing, for the fire sufferers.

Mowasqua, Ill., Sept. 5.—General showers have prevailed throughout the locality, and the farmers are consequently in very high spirits. The rain is of great value to the corn crop.

Valparaiso, Ind., Sept. 5.—Rain yesterday and last night will save many of the crops in Northwestern Indiana.

Waterbury, N.Y., Sept. 5.—The six weeks' drought which has prevailed in Northern New York was broken last night.

Lockport, N.Y., Sept. 5.—The first rain for five weeks is falling here to-day, and it is warmly welcomed. It comes too late to save vegetation, but will improve late crops and fruit.

Attorney-General's Department to Make an Example of Late-Departive to Be Sent to Gibraltar.

Although captured were made yesterday for the settlement of the Laska case, by Salvadoro, broker of the man under arrest at Gibraltar, the Attorney-General's Department will accept no compromise, and say Niagara must be brought back to stand his trial.

He says he intended to do, but neglected it until he heard of his brother's arrest. This was the story he told to Deputy Attorney-General Cartwright yesterday, but the answer he received was: "It is now too late, he must stand his trial." The dealers interested will listen to no overtures, but say they are determined to make an example of Laska, who they claim is a thorough rascal.
