at remunerative prices on that account. This colt is entirely of Mr. Tole's own breeding, as he also bred both his sire and dam.—*East Kent Plain Dealer.*

The fastest three-year-old trotter this far bred in Canada is Albani, a chestnut filly that this season made a record of 2:29½, lowering the best previous Canadian record by nine seconds. She is by Hermit son of Harold, her dam being by American Clay Hermit, although by a trotting sire and himself the sire of speed at the track a pacer, and this year made a record of 2:29½ at that gait. He is but six years old, and to have a three-year-old that has beaten 2:30 to his credit is quite a feather in his cap. Of late years there has been a great influx of American trotting stallions into Canada, and the results have been more than satisfactory. The number of trotting tracks has increased wonderfully, and as trotting meetings have become popular, the runners have gone down hill until now the interest in the thoroughbred has about died out.—*Rushville Graphic.*

At the Hillside Farm, Drumbo, Oxford Co., Mr. Jas. Bowlin himer sells by public auction on Feb. 19th his entire herd of Shorthorns, and five registered Clydesdale horses, of which two are stallions, two Suffolk Punch mares, and also a number of pure-bred Berkshire sows. This gentleman writes us: "The Shorthorns are of the fine old Bates' strains, and many of them of Bow Park ancestry, notably Adeliga 25th, and Adeliga 26th, and Rose of Blenheim; and in their ancestry such sires as Duke of Oxford (38172), pure Oxford, imported as a calf at a cost of \$7,500 (sire of the Duke of Brant, one of the leading bulls of Bow Park herd); 5th Duke of Holker (51082); the \$13,000 bull, 4th Duke of Clarence (33507); Earl of Mar (478151); Constance Duke (7753); Oxford Lad (5056), a provincial show prize bull, of whom Mr. Page said that he was the best he ever saw; Waterloo Duke 16th and Waterloo Duke 18th, bred at Bow Park, also pure Waterloos, by 54th Duke of Oxford 55733, grandly bred. Horses having in their ancestry such sires as Laird o' Logan imported [1240] (2928), the Douglas imported [1220] (5395), Just in Time imported [1218] (1166), Ontario Chief imported [155] 398 (1776), King of the West imported [185] (69006), Tam o' Shanter [146]. The stock have been wintered as usual, and nothing has been fed for the occasion. They will be found in good breeding condition—nothing more."

Mr. THOS. GOOD SHAMROCK AVENUE STOCK FARM, RICHMOND, P.O., writes that he has been fairly successful with his travelling stallions the past season, Little Jock Elliot (3798), is still gaining favor; and Doncaster 2371 so much so that he doubled his business of previous seasons. Sir William Wallace (2496), for his first season in a territory hitherto unknown to Clydesdales was particularly successful; Duke of Argyle (4342), is coming to the front, his stock proving large useful looking colts. At the Central Exhibition held at Ottawa, Duke of Argyle took 3rd place in the aged class; the yearling Sir Walter (937), took 1st in his class and bids fair to be a superior horse, he is a get of Little Jock Elliot and out of Belle of Richmond, a combination of Darnley and Prince of Wales blood. The two-year-old filly Queen Vic (410), was winner of 1st in her class and diploma as best mare any age. Queen Vic is perfection itself and is grandly bred, being a get of the famous Montgomery (3234), and out of Belle of Richmond (3543). Belle is proving to be a first-class brood mare, her foal The Marquis is also a promising colt.

"My Durhams are doing splendid. Burnside Lady having a grand bull calf by Kossuth, he is a dark red, and named Wilkie Collins; Bright Eyes has a splendid heifer calf by same sire. The yearling bull Royal Shamrock I sold to R. A. Wallace, Calgary, N.W.T.

This has been my most successful season in South Downs and other grades. I found a ready sale for all my ram lambs and most of the ewes.

My Berkshires are doing splendid. I expect a fine crop of sucklings for sale in early spring. I found ready sale for all spare stock.

MR. HENRY K. FAIRBAIRN, OF THEDFORD, ONT., recently purchased from Mr. Arthur Johnston, of Greenwood, an excellent young bull of the famous old Lancaster or Leander tribe. He was sired by the imported Golden Drop bull, Albert Victor (55250), and out of imported Mary Anne, of Lancaster 13th, by Victory (48871). He is at present in fairly good breeding condition, but with good care, he will make a show bull of very high merit.

Neousholder, of Kansas. The three latter were sent forward in the same car, and are all show animals, one of them being taken expressly for that purpose. Accompanying these went a young Cruikshank cow and red heifer calf, and a prize-winning yearling heifer. The demand for the best Shorthorns is good."

JAS. S. SMITH, OF MAPLE LODGE, ONT., writes: "During the past month we have the following additions to our herd by birth: From the Cruikshank cows Lovely Queen 3rd and Lovely Queen 4th we have a heifer and bull respectively, both red and got by Conqueror. A. HAGAR, OF PLANTAGENET, ONT., writes: "We have had so far a very mild winter, with frequent rain storms, altogether different from the winters as I remember them forty years ago. Crops in this section, except hay, the poorest in my remembrance. All kinds of stock doing well. My imported Cruikshank cow Oakfern, 4 years old, has proved a good breeder, and is now carrying her third calf. Imported Cruikshank bull Erik, now my stock bull, is developing all the characteristics of that popular Shorthorn family. I have a number of fine young bulls, from 9 to 24 months old, for sale which, I now advertise with you, all sired by Soldier Boy. The demand for Shorthorns has been good.
