

WORK on the Lambton Mills extension of the Toronto suburban railway will commence at once.

A SECOND deposit of hematite iron has been discovered at Belle Isle, Newfoundland. The deposit is said to contain forty million tons.

At a special meeting of the Association of Architects of the Province of Quebec, a resolution of regret was passed on the recent death of J B Resther, one of the founders of the association.

It is said that the mining properties in Rossland camp, Kootenay district, B C, known as the Le Roi, War Eagle, and Iron Mask mines, have been sold to English capitalists. The Le Roi mine brought \$5,000,000, the War Eagle \$2,000,000, and the Iron Mask mine \$1,000,000

The annual meeting of the Ontario Association of Stationary Engineers was held at Galt on the 1st inst., when the following officers were elected: A. Ames, Brantford, president; T. C. Mitchell, London, vice-president; R. Mackie, Hamilton, treasurer; A. E. Edkins, Toronto, registrar. Board of Examiners - James Devlin, Kingston; J. W. Bain, Toronto; W. Donaldson, Ottawa; Wm. Stott, Hamilton. Various topics relating to the safety and efficiency of steam appliances were discussed, and a resolution passed authorizing the association to carefully enquire into all explosions of boilers at the expense of the executive of the association. J Devlin, Kingston, A. M. Wickens, Toronto, and A. E. Edkins, Toronto, Ont., were appointed a committee to secure a Dominion charter.

ALBERT DUNCAN,  
Chairman W. W. Com., Petrolia, Ont.  
WILLIS CHIPMAN, Chief Eng., Toronto, Ont.  
Dated May 22, 1890.

**McGill University**  
MONTREAL, CANADA

The Governors of McGill University are prepared to receive applications for the following posts. A Professorship of Architecture; A Professorship of Mining and Metallurgy. An Assistant Professorship of Civil Engineering, An Assistant Professorship of Descriptive Geometry and Freehand Drawing.

The nature of the work is fully described on pages 18-27 of the University Announcement, copies of which may be obtained on application to the Secretary, McGill University, Montreal. In the case of the Professorship of Mining, and of the Assistant Professorship of Civil Engineering, experience in laboratory work is essential. The Assistant Professor of Civil Engineering should also have a thorough knowledge of hydraulics. Candidates for the Assistant Professorship of Descriptive Geometry and Freehand Drawing should have a knowledge of architectural drawing, as the Assistant Professor of this subject will be expected to give assistance to the Professor of Architecture.

Candidates for any of the above appointments must send their names to the undersigned, together with a statement of their age, previous career and qualifications, with such testimonials as they may think desirable, not later than the 14th of July.

J. W. BRAKENRIDGE,  
Acting Secretary, McGill College

415 BOARD OF TRADE BLDG., MONTREAL

**Volcanic Patent Shaking Grate**

Will outlast six sets of common grates; will save 10 to 20 per cent. of fuel. Simple in construction, and by reason of the corrugated tapering bar and its perpendicular motion, the toughest clinkers are broken. Can be put in without tearing down any of the boiler wall. Testimonials from the best engineering and manufacturing firms in Canada.
