

NON-OFFICIAL PART.

Conservatism vs. The Rage for Novelties.

The Seed Annual for 1890, issued by D. M. Ferry & Co., of Detroit, Michigan, has reached our table. Its cover this year is especially artistic and attractive, and its contents unusual, interesting and instructive. Ferry's seeds are thoroughly reliable, and always come true. The directions given in the Annual for the cultivation of both flowers and vegetables are so full and explicit that no one can fail of success who uses their seeds and follows the instructions.

D. M. Ferry & Co. are very conservative, both in offering new sorts and in their claims for them when offered; but they take pains to inform themselves as to the true character of all new varieties, so if some much lauded novelties are not found in the Annual, the probability is they have tested them and found them of no value.

A request sent to the firm at Detroit, Michigan will bring you a copy of the Seed Annual for 1890 by return mail.

AMHERST ACKNOWLEDGMENTS.

"I ACKNOWLEDGE the good I received from Burdock Blood Bitters. I had constipation, irregular bowels and accumulation of wind, causing severe pain in my stomach. Two bottles of B. B. B. cured me. It is all you claim it to be."

ALLAN A. CLARKE, Amherst, N. S.

A letter from Dr Hans Von Bulow.

The Knabe Pianos which I did not know before, have been chosen for my present Concert tour in the United States by my impressario and accepted by me on the recommendation of my friend, Bechstein, acquainted with their merits. Had I known these pianos as now I do, I would have chosen them by myself, as their sound and touch are more sympathetic to my ears and hands than all others of the country.

DR. HANS. VON BULOW.

New York, April, 6, 1889.
To Messrs. Wm Knabe & Co.

What butter makers ought to do.

Everybody who makes butter, from the farmer's wife, whose one cow affords only enough butter for her own table, to the large creamery that produces several hundred pounds a day, ought to use every endeavor to obtain a uniform product. With a little care this can be done. There is no more need of making fresh butter from one churning, and the next time getting it too salt to eat, than there is of taking the cow into the parlor to be milked. Find out how salt your customers want their butter and then afterwards use the right amount of salt every time.

The color is even more important than the flavor, for butter of a rich golden shade always tastes well. Keep your butter of a uniform June tint the whole year, and it will give much better satisfaction and bring higher prices. Messrs. Kenney & Son, butter buyers of Hallerton, P. Q., advise their farmers to use Wells, Richardson & Co's Improved Butter Color. They usually pay two cents per pound more for butter in which this color has been used than they do for butter that has not been colored.

A CURE FOR DEAFNESS.

THERE have been many remarkable cures of deafness made by the use of Hagar's Yellow Oil, the great household remedy for pain, inflammation and soreness. Yellow Oil cures rheumatism, sore throat and croup and is useful internally and externally for all pains and injuries.

CONSUMPTION CURED.

An old physician, retired from practice, had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and a Throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints. Having tested its wonderful curative powers in thousands of cases, and desiring to relieve human suffering, I will send free of charge to all who wish it, this recipe in German, French or English, with full directions for preparing and using. Sent by mail, by addressing, with stamp, naming this paper, W. A. NOYES 820 Powers' Block, Rochester, N. Y.

SWIMMING NIAGARA.

Is an easy way to end life, and suffering dyspepsia to exist is an easy way to make it miserable. Taking Burdock Blood Bitters is an easy way to cure dyspepsia and it never fails to thoroughly tone and strengthen the entire system at the same time.
