NOTE.—Further details cannot be given at present in regard to the proposed new building at Mhow and Neemuch, the Foreign Mission Committee not yet having received from India the plans and other necessary information. The same remark applies to the bungalows required for our lady missionaries there. It is the earnest wish of the Society to provide suitable and healthy homes for our lady missionaries. This was done in Indore, in 1886; at a cost of about \$4,000, and our united prayer is that it may soon be accomplished at the other stations where it is necessary.
