among twenty-three dioceses, one-third was given to the three so-called "Evangelical" sees of Calcutta, Madras, and Melbourne, while Toronto, which it appears is a peculiar favourmembers of our church, only received from the as possible under the system of representation general funds £3,287, and from the Jubilee fund £1,000 towards the endowment of Trinity College, Toronto; the sums allotted for the same period to Calcutta being, from general funds, £8,897, and from the Jubilee fund £8,000 towards a mission at Delhi. Madras received £10,287, or more than twelve times the sum allotted to the so-called "Tractarian"

see of Tasmania. It is also alleged that the number of Romanists in Canada has greatly increased of late. This, if true, can only be attributed to the immense immigration of Irish Romanists, in consequence of the great railway and other public works now in progress in that country. As far as the church is concerned, several conversions from Romanism have recently occurred among

the French Canadians. We now come to the general assertion that the society in its choice of clergy favours a par-ticular party in the church. It is alleged that the majority of the clergy sent to the colonies hold what are called "Tractarian views;" that the funds of the society are used, not so much for the purpose of spreading the glad tidings of

Your committee would observe with reference to this assertion, that it is at all times much easier to make vague and general charges than it is to give them a specific answer. Nothing can be easier than to say that there are in the colonies clergy of a certain party. It is also very easy to designate them by an obnoxious term. We all know in what a sweeping and wholesale manner offensive epithets are but too wholesale manner offensive epithets are but too frequently applied. All we can do is to call attention to the rule in accordance with which all the society's appointments to colonial charges are made—a rule which is strictly adhered to. All such elergy must be approved by a board of five. All such clergy must be approved by a board of five examiners, appointed annually by the Archbishops of Canterbury and York, and the every way qualified for the posts assigned them. And here we wish to take notice of a cavil state-and we do so in the name and with the authority of the Archbishop-that his Grace, when in London, is always present at the monthly meetings of the society;" and further, that his Grace does take "a very great interest in the affairs of the society." His Grace adds
-"The effect would be truly lamentable if the

It should be borne in mind too, that those who bring forward those charges boast that they themselves form by far the most numerous section of the church. If, therefore, they are in a minority in the colonies, the fault does not rest with the society. Again and again she issues her appeals for additional labourers; every post from the colonies echoes the same cry of "Come over and help us." If others, therefore, are more ready to respond to this call, -if others are more willing to leave houses and land, and father and mother, for the sake of Christ,-surely the society is not to blame. She is willing to accept the services of all; she recognises no party limits less broad than those of the Church of England itself.

Surely if these objectors really desire the welfare of the church, they would act a more noble part if, instead of withdrawing all support from their destitute brethren in the colonies, they would endeavour to remedy what they consider defects in the working of the

the divinity students what an amount of good it may be in their power to effect, not only for the church abroad, but also among its individual members in their own parishes at home, by bringing before their congregations the claims of the colonial church. It cannot fail to do good, and to enlarge the sympathies of every Christian, to feel that, as such, he is no isolated individual, but one of a vast society, whose members, though scattered over every part of the earth, are, nevertheless, all bound together by common interests and mutual relations, and have all the same noble object in view—the spreading of Christ's kingdom upon earth, and the promotion of peace and good-will among

OPENING OF PARLIAMENT. Quebec, June 13, 1854.

To-day, at 3 o'clock, the Governor General proceeded in state to the Council Chamber in the 24th. Parliament Buildings. The Members of the Legislative Council being assembled, His Excellency opened the second session of the 4th Par-

liament of the Province. Hon. Gentlemen of the Council, and

Gentlemen of the Legislative Assembly: During the recess the Province has sustained, I regret to say, serious loss by fire in the destruction of the Houses of Parliament, and of the building which was secured for the temporary occupation of the Legislature. The best arrangements possible have been made for your accommodation. Her Majesty, the Queen, having failed in her anxious and protracted endeavors to preserve the blessings of peace, has felt herself called on, by regard for an ally, the integrity and independence of whose Empire has been recognized as essential to the peace of Europe, to take up arms in conjunction with the Emperor of France for the defence of the The manifestations of the loyalty and sympathy which have been so general throughout the Province at this conjuncture, I am confident will be heartily responded to by the Legislature. The cordial co-operation on this war is well calculated to call forth the sympathies of a

country peopled by the descendants of those two Having, during my recent visit to England, been honoured by the Queen's command, to en-deavour to effect the settlement of various important questions bearing upon the interest of e British North American Provinces,-which had been long pending between the Governments of Great Britain and the United States,—I proceeded to Washington, where, after frank dis-cussion with the authorities of the United States, I was enabled to conclude a treaty, which now awaits ratification, upon terms which it is my firm conviction will prove highly advantageout to the colony generally, as well as to the United

States. A measure to give effect to that treaty will be submitted for United States approbation. constitution of the Legislative Council.

I will commend to your consideration the pasfranchise, in order that the constitutional expression of opinion may be obtained as speedily questions on which legislation is required.

Gentlemen of the Legislative Assembly: The public accounts for the past year, and the estimates for the present, will be submitted to you without delay, and I rely with confidence on your willingness to make the necessary pro-

on your winnigness to make the necessary provisions for the exigencies of the Government.

The prosperous condition of the revenue may suggest to you the propriety of making such reductions in the tariff as may be compatible with the security of the public credit, and efficiency in the public service. During my so-journ in England I was much struck by the proofs which I received from all quarters of the creasing interest in Canadian affairs, and I trust that my acquaintance with the Province, derived from long residence within it, may have enabled me to render some service in spreading more widely a knowledge of its resources, and

the feelings of the inhabitants. Although a state of warfare has a necessary tendency to restrict operations involving large expenditures of capital, I feel confident that the credit of Canada has attained a position in the Gospel, as for propagating tenets at variance with the teaching of the Church of and that to enable you to retain it nothing more is required than prudence in your undertakings, and the maintenance of the high character for fidelity to pecuniary engagements, which the Province has at all times borne.

A serious accident occurred yesterday on Adelaide street. The boiler in Messrs. Parkes' Foundry exploded, the whole boiler blowing through three brick walls, all the way to Boulton street, a distance of fifty or sixty yards. Several

"He would say—' Let us say nothing about Lower Canada Church property in the meantime. Let us get the Reserves settled first, which we cannot do without the aid of the French Canadians; and THAT DONE, THE CHURCH PROPERTY IN LOWER CANADA CAN BE DISCUSSED AFTERWARDS. Such"—says the Bathurst Courier—" would have been the course of a wise politician desirous of securing the triumph of his avowed principles."

We will not dwell upon the deep significance

of this passage; nor insist upon the contempt therein expressed for the intelligence, or good faith, of the "French Canadians," who are to be made tools of, because "without their aid," the Reserves cannot be settled. PROTECTION FROM LIGHTNING By Spratt's Patent Lightning Rods MANUFACTURED BY E. V. WILSON & H. PYPER & BROTHER,

50, YONGE STREET. THE Subscribers are the only authorized agents for the sale of these valuable rods in the Canadas. Manufactured and for sale, wholesale and retail, at their manufactory,

50 Yonge Street, Toronto. CAUTION-Allow no man to protect your building without first examining the points of his rods; and if they have not the Platinum Wire in the point, they are not Genuine. The coating of the point is of a composition metal that never rusts, retaining its brightness for years; the nature is soft and can be cut with a knife, yet sufficiently hard not to melt under the influence of Electric fluids. Look out for Rods manufactured at St. George, C. W. They purport to be Spratt's Points and Rods, but are not. They are made of steel highly polished; but will become coated with rust after the first night's exposure to the atmosphere; consequently rendering them useless. Always ask for the agent's certificate, and be sure to notice the stamp, SPRATT'S IMPROVED

Points, near the base. NOTICE.-No Policy of Insurance covers osses by lightning, unless burned down or set
