

MASSEY-HARRIS

Combined Hoe Drill and Spring Tooth Broadcast Seeder

REAR VIEW, SET UP AS A DRILL.

THE SPRING TEETH INTERCHANGEABLE WITH THE HOES ARE SHOWN LOOSE ON THE GROUND.

This is positively the lightest, strongest, and in every way the best combined machine yet produced. It represents the best features of the

"WISNER,"

the "GOLDFINDER,"

and the "SUPERIOR"

COMBINED DRILLS,

together with some valuable new features, consolidated into one machine.

GRASS SEED DISTRIBUTER.

THE LATEST AND BEST.

All Steel.

Neat in Appearance.

Mechanical Principles Unexcelled.

OPERATION OF THE PRESSURE LEVER ILLUSTRATED. THE SAME LEVER LIFTS THE HOES FOR TRANSPORTATION AS SHOWN BY THE DOTTED LINES.

FRONT VIEW, SET UP AS A DRILL.

MANUFACTURED BY

MASSEY-HARRIS CO., LIMITED, TORONTO, CANADA.
