

ABSTRACT

The directory lists foreign seafood buyers identified by Canadian Trade Commissioners and Commercial Officers at more than 70 Canadian Trade Offices abroad. The Directory is organized alphabetically by country chapter, and by cities for countries which are served by more than one Canadian Trade Office. Each country chapter provides: (1) maps, including time differences from selected Canadian cities, (2) a short market profile, (3) a list of seafood buyers, and (4) the name of a contact at a Trade Office who can assist you with your marketing efforts. In many cases, the main species handled by foreign buyers are also identified.
