6. *World Resources 1990-91*, p. 352.
7. Vol. 38, p. 36.
8. WRI data have been used throughout, except that the value for Canadian "pipeline leakage" in the WRI Table 2.1 (7,800,000 tonnes of methane) has been changed to 198,000 tons (CGA estimate). WRI methods of calculating the *net* emissions to the atmosphere, and the carbon equivalent, have been followed (see notes to Table 24.2 in the WRI volume).
