

With reference to the other suggestions, Nos. 1 to 13, it is not stated by the Committee whether these are in order of importance. I doubt whether they are intended to be so, but deal with them in this order.

" EXTENSION TO THE PHYSICS BUILDING"

Suggestions as to this have been made verbally by the staff at different times.

"EXTENSION TO THE ROYAL VICTORIA COLLEGE"

Recommended in the Principal's Report of 1922-1923, referred to in the reports of the Warden in 1924-1925 and 1926-1927. This matter is already before the Governors and has been decided on.

"ACCOMMODATION FOR THE DEPARTMENT OF PHYSICAL EDUCATION"

This has long been under consideration and goes with the Gymnasium. The Director refers to the need of it in his report of 1924-1925, where he points out that the activities were being carried on in 13 different buildings.

"ACCOMMODATION FOR THE SCHOOL FOR GRADUATE NURSES, FACULTY OF DENTISTRY AND FACULTY OF LAW"

These are without doubt very urgent.

"MUSEUMS COLLECTIONS, DEPARTMENT OF ARCHITECTURE, STADIUM, PLAYING FIELDS AND LABORATORIES"

The report fails entirely to refer to the necessity for a rebuilt administration building, the desirability of a Convocation Hall and the need for proper accommodation for the Faculty of Music.
