BOILER FLUID COMPOUND

Patented 5th March, 1877

This Compound will Save its Cost many times in one year
... by Saving Fuel ...

It eradicates scale, and when the boiler is once clean a very small quantity keeps it clean and free from all incrustation. One-fourth the dose will prevent a new boiler from scaling so long as it is used regularly.

Contains no caustic Soda, and is the only matter yet known that will not injure metals in any way, and emits a clear, pure steam.
