Special to The Toronto World.

Special Report of the board of conciliation appointed to consider the demands of the employes of the Guelph Radial Railway was presented. The men asked for an eight-hour day and a rate of 47c an hour. The board recommended that the two-year system be adopted, thus giving the men a nine-hour day, or 54 hours a week, whereas under the present system they work from 67 to 70 hours a week. The new scale of wages provided for 38c an hour for the first three months, 39c for the first year, and 41c after that. The board also recommended that a straight five-cent fare be charged. The men were also granted time and one-half for all overtime and holidays.

SETTLERS CONTENT IN KAPUSKASING

Survey by G.W.V.A. Organizing Secretary Contradicts Carmichael.

H. A. Lewis, organizing secretary of the G. W. V. A., and attached to the provincial command, returned on Monday to the city after taking part in an investigation into the conditions of soldier settlers in Kapuskasing.

In an interview with The World yesterday, Mr. Lewis stated that he found no serious causes for complaint so far as the conditions were concerned, and that those of the settlers who are determined to be successful could make good. He stated that only those who had "ill luck, ill health, or were temperamentally unfit," could fail, and that from his observations while there he decided that it was an attractive proposition. Perhaps one reason for failure of the settlers is that they are not co-operating with the government, he stated. He stated that the average man was in no particular way so and he could find. He added that there was no necessity for a man in that country to be out of work and that all that was necessary was that he should make himself proficient with an axe.

A report is being prepared by Mr. Lewis which makes a number of recommendations for the adjustment of minor grievances. This, when prepared, will be submitted to the government.

A report has also been prepared by the provincial department of lands, regarding the conditions of the settlers, in which it is stated that the charges levelled are without foundation and that most members of the farm colony are satisfied with their treatment.

Competent Administrator.

The memorandum deals with the charges made by General Organizing Carmichael of the G. A. C. regarding the statement that there was lack of sympathy on the part of the superintendent of the department of lands, and that Panning, the deputy, was a draft evader. The report states that the responsible element spoke of Mr. Panning as a competent administrator and that Panning, the deputy, was a rejected for service because of a charge that he had been a draft evader. The report denies the charge that the superintendent was at the government store and states that the colony receives goods at cost.

It is pointed out that the report in which it was stated that the Hon. J. Dewar had called for an investigation, the report says that "The charges which the report makes resemble those of Mr. Carmichael to a degree as to make it seem probable that Mr. Carmichael represented other interests than those of the Grand Army of Canada."

Half Million Expended

Mr. Dewar has stated that the cost of the undertaking was nearly half a million dollars. To the minister of lands and timber, the report of the investigators outline all the buildings which have been erected. A statement of the assets is submitted, and contingencies is only a little more than \$100,000. The government has also expended \$1,481,500 for medical services to the soldiers in the colony.

"Out of the 39 men who are at the colony," continues the report, "70 per cent are satisfied with the conditions. There is a small noisy element, which seems to regard the nature of a permanent post home rather than as a means of building up a substantial wood cut, and who are cultural communists." Ontario. The charges of both the individuals mentioned bear the earmarks of an attempt to secure publicity rather than a desire to assist returned soldiers in their settlement problems. The charges vary from half truths to gross falsehoods.

Fulfilling Promises.

The report declares that all is being done for the settlers that was promised, and that their work is in accordance with the terms and conditions under which the men were sent to Kapuskasing.

"The contention that a few soldiers have been dumped into a wilderness and left to their devices is a deliberate misstatement of the facts," the report states. "The living conditions at Kapuskasing are infinitely superior to living conditions as experienced by the ordinary settler in northern Ontario, and the average man in the colony will tell you that he is much better off than if he had remained in the city. The dismissal of half a dozen agitators from the colony would present the solution for nearly all of the present trouble."

The statement submitted in the report shows assets of \$201,426.73, including buildings constructed, improvements, fire protection, telephone system, live stock, farm library, plant, tools, equipment, stock on hand, accounts receivable, in addition the cash revenue returned to the provincial treasurer was \$44,714.90, and the value of the land cleared and wood cut is \$93,287.01, making a total of \$339,410.64. The total cost of the settlement to the government for two years, ending October 31, 1918, will be \$499,527.84, but with the assets deducted, the cost is only \$160,117.

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this recipe and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and successfully requires constitutional treatment. Sprays, inhalers and nose douches are liable to irritate the delicate passages and force the disease into the middle ear, which frequently means total deafness. The only safe and effective treatment is the use of the following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your druggist 1 ounce of Farnin (Double strength). Stir this into a pint of hot water and add a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring relief from distressing head noises. Closed nostrils should improve as the inflammation in the eustachian tubes is reduced. Farnin used in this way acts directly upon the blood and thus surmounts the system and has a tonic action that helps to obtain the desired result. The preparation is easy to make, cost little and is pleasant to take. Every one who has catarrh or head noises or hard of hearing should give this treatment a trial.

C. GRANT MACNEIL REFUTES CHARGES

Denies That G.W.V.A. Officials Betrayed Wishes of Rank and File.

Canadian Press Despatch.

Ottawa, Sept. 30.—A statement was issued today by C. Grant MacNeil, Dominion secretary of the G.W.V.A., refuting charges made by Harry Flynn, president of the Toronto Returned Soldiers' Gratitude League, who is in Ottawa, to the effect that the officials of the G.W.V.A. had betrayed the wishes of the rank and file and also covering some interesting points regarding the G.W.V.A. position on the \$2000 bonus scheme. Mr. MacNeil incidentally states that the G.W.V.A. has at least three schemes to submit to the committee of enquiry for raising money to aid the returned soldiers.

"Personally," said Mr. MacNeil, "I am acting under the instructions of the executive of the G.W.V.A., and as a servant of the organization I must abide by its instructions. But never at any time have I expressed myself against the \$2000 bonus plan, simply because I have no instructions to that effect."

Needs Backing of Facts.

"We realize the stupendous nature of the demand, and also that the need must be actually established by facts and not by wild and extravagant statements. Officials of this organization are not making any attempt to suppress news of the general membership. As a matter of fact, at least three proposals will be submitted to the committee, all of which exceed in comprehensiveness the crude scheme first evolved in Calgary."

"There has been no betrayal of the wishes of the general membership. The instructions of the Vancouver convention have been carried out to the letter."

THOUSAND VETERANS REGISTERED

In welcoming students to the university in Convocation Hall yesterday afternoon, President Falconer said there were 1000 veterans registered for the year. In addressing the students, the president said: "I sincerely hope that Hart House will have a powerful moderating effect and will prevent any seamy contests such as have in the past taken place both within and without the faculties. These contests brought the good names of the university into disrepute with the public, and were unworthy of the students themselves." Mr. Falconer reminded those students present that severe penalties would be inflicted on all those who took part in unauthorized contests.

ENDEAVOR TO UNITE ALL VETERANS

All Organizations Except G.W.V.A. Discuss Possibilities of Union.

The amalgamation of interests of the various veteran organizations in Canada into one body, was discussed at a recent meeting attended by representatives of the Grand Army of Canada, His Majesty's Army and Navy Veterans, the United Veterans' League, and the Army and Navy Veterans and Naval Veterans.

This new league will embrace thousands of returned soldiers and sailors in Canada and will necessitate radical changes in the plans of the organizations affected. The league will in all probability bear the name of the Veterans' Council.

Complete plans for the new organization have not yet been made due to the fact that the U. V. L. have not yet secured their charter and that there are so many details in connection with the establishing of such a large organization as the proposed council.

According to the proposed plans, each organization in the Veterans' Council will have the right to send five representatives so that even the smallest organization will have the same voting power on all questions as the largest. An invitation has been extended to the G. W. V. A. to come in with the rest.

67 YEARS OF GROWTH

IN the early days the founder of this business made a few gross of matches a day, and sold them himself, driving his horse and wagon as far as Toronto. Today, from automatic machines, 70,000,000 matches a day are turned out to keep Canada's home fires burning. And not matches alone: indurated fibreware, household helps, and a host of paper products have been added to this line.

The House of Eddy

has become an institution which touches the daily life of the Canadian public in a thousand different ways.

There is a reason back of this steady and consistent progress. Business institutions do not grow to such proportions by accident. It takes real merit to accomplish such a result; merit in the goods themselves, and in the concern which is back of them.

When you buy matches, see that Eddy's name is on the box. When you are in need of some of the familiar household helps, such as a washtub, a pail, or a washboard, remember that there is an Eddy product which will fill your needs, made from light and durable Indurated Fibreware. Remember also that Eddy's Paper Specialties are standard.

Our Prestige is your Safeguard when you buy Eddy Products.

CHANGE SECRETARY TITLES

To avoid confusion the Ontario provincial command of the G. W. V. A. have decided that Comrades McLean, Lewis and Soubaly, who were originally given the title of field secretaries, will be referred to as organizing secretaries.

This action was taken in order to avoid any one of these men being mistaken for field secretaries employed by the government to assist the re-education and employment committee of the federal cabinet. J. McGregor, who was also employed at the same time as acting as the assistant secretary.

These men are engaged by the Ontario provincial command, paid by the police on a charge of murder, and are in no way responsible to or working for the government.

TRAPS FOR LOMBARDI

Rumors Rife That Alleged Slayer of Berredilla Plans Surrendering Himself.

Rumors rife in police circles are to the effect that developments will follow the murder inquest tonight in the morgue, where Coroner G. B. Row will conduct the adjourned hearing into the fatal shooting of Joseph Berredilla. Berredilla was shot one week ago yesterday on Elm street and died 24 hours later in the hospital.

Frank Lombardi, taxi driver, wanted by the police on a charge of murder, is still at large, and it was stated on reliable authority that Lombardi intends surrendering to the police.

The word was also spread that a firm of well-known criminal lawyers are looking after the interest of Lombardi, and the verdict of the jury is being waited for to a what evidence is brought out in connection with the shooting. Lombardi is believed by the police to be hiding in Toronto, and a search party of the Italian sections is being kept by the police on the streets working every clue to capture him and to foil his plan of surrendering.

Several confidential informants of the police credited it that Lombardi and Berredilla had quarreled and started to fight. The trouble is alleged to have resulted over two women in an automobile. Berredilla is said to have mounted the running-board of Lombardi's car with a razor when he was wounded by a bullet. No trace of the women has as yet developed in police circles.
