"The Piano Anyone Can Play."

The introduction of the Autonola into a home transforms that home from a place where music is seldom heard to one in which music-all the compositions of the centuries-is at the command of every member of the family, for every one becomes a performer. The Bell Playerpiano actually means that every person can play, and play easily and well, music of every

Not only is this a magnificent piano for playing with the aid of music-rolls and treadles, but it is an exquisitely beautiful instrument of the regular character as well. It can be played by hand in the usual way, and the change from one form to another is merely a matter of sliding treadles into the case and pulling the spool box panel. The Bell Playerpiano is thus in reality TWO PIANOS IN ONE.

The difficulty in the way of having satisfactory music that is so common in most homes -"there is no one who plays often enough to play well"-is completely overcome where this Playerpiano of ours is introduced. Every one,old or young, and whether familiar with the keyboard or not, can play-and play with expression and feeling.

We take your old piano in exchange as part payment at a valuation that our representative will be pleased to make you. On receipt of a postal card or telephone message he will be pleased to call day or evening. Or we would be glad to have you visit our warerooms and play this marvellous instrument for yourself. You can select your music from a collection of two thousand rolls, which we have on hand in our musical library.
