Their Spirits Improving.

Reports brought through the lines to spaniarus and rilipinos in tims city are that the spirits of the insurgents are improving. The generals are telling their followers that American inaction during the past month is due to discouragement and demoralization. Through the American secret service come dinerent stories, that the Filipino army is becoming decimated by desertion to the number of 20 or 30 a day, and is fast losing heart and on the verge of disruption. Past experience with the secret service justifies a suspicion that many of its employes, most of whom are natives or Spaniards, are deeply interested in holding their places by seeming to earn their pay, while the refugees who come through the lines have been disposed to give reports which they think will please the authorities. There was a time when Agoinaldo's biggest army hung in the balance, when its destruction appeared inevitable. That was when McArthur had captured San Fernando, and Lawton was marching upon San Isidro with the Filipinos scattering before him. Lawton had made himself a terror to the insurgents because no obstacles stopped him.

With Lawton at San Isidro, the rebels feared he might sweep around upon Tarlac.

The Demon Dyspepin—in olden times it was a popular belief that demons moved invisibly through the ambient air seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. He that finds himself so possessed should know that a valiant friend to do battle for him with the unseen foe is Parmelee's Vegetable Pills, which are ever ready for the trial. certified by Dr. Hassell to be absolutely free from opium or morphia; hence safest and best. A Magic Pill—Dyspepsia is a foe with which men are constantly grappling, but cannot exterminate. Subdued, and to all appearances vanquished, in one, it makes its appearance in another direction. In many the digestive apparatus is as delicate as the mechanism of a watch or scientific instrument, in which even a breath of air will make a variation. With such persons disorders of the stomach ensue from the most trivial causes and cause much suffering. To these Parmaleers Vegetable Pills are recommended as mild and sure
