Dodge Company Employees Held a Successful Picnic at Long Branch.

TUG-OF-WAR WON BY MOULDERS

Young Shamrocks First in Intermediate Lacrosse League—Baseball Notes.

Toronto Junction, Aug. 23.—The Dodge Company employees held their annual picnic on Saturday afternoon at Long Branch, where a good program of events was successfully carried.

The tug-of-war match between the moulder and the woodworker teams was the most interesting feature of the day.

The Shamrocks defeated the Weston lacrosse team at Weston, which places the Shamrocks of Toronto Junction first in the Intermediate League.

The baseball match was won by the moulder team, who defeated the woodworker team by a score of 10 to 8.

IS RELIGION WORTHLESS ASKS GOLDWIN SMITH

Toronto Citizen Writes on the Loss of Belief in the Dogmatic Supernatural.

Dr. Goldwin Smith contributes the following to The New York Sun:

To the Editor of The Sun: Sir,—It was your correspondent "Verus," I think, who said the other day that no religion had ever taught us anything worth knowing.

What he said was true. Nothing that dealt with the supernatural and the unseen has told us, or could tell us, anything in the way of material or positive fact.

Yet it cannot be denied that religion has played its most important part in the development of humanity. Religious devotion was the form originally assumed by what is now moral philosophy.

The primary instance of this is the religious legislation ascribed to Moses, especially the Christian religion, which is the philosophy of Socrates and his disciples Plato and Xenophon certainly rested on religious belief—not in the Greek pantheon, but in a supreme power that made for righteousness.

So did the moral philosophy of the great stoics Marcus Aurelius and Epictetus, impersonal as their deity is.

Influence of the Ancients. Egyptian morality appears to have been in form religious. More questionable, of course, is the influence of the Greek pantheon, with its amorous Zeus and his numerous Olympian gods.

The Delphic oracle in its best days seems to have been an organ of morality. It gave the story of a man who, wishing to repudiate a deposit, consulted in the oracle and received an encouraging reply.

When, having paid the penalty of his crime, he approached the oracle with having misled him, he was told that this was his reward for the insult which he had offered to the moral majesty of the god.

In the aesthetic development of man the Greek gods are still living in the great part. The Parthenon and the cathedral, the great painters, the composers of sacred music, Dante and Milton are religious. So fundamentally is Shakespeare, though he was probably a free thinker.

No doubt there have been aberrations many and horrible, such as Moloch worship and the Inquisition. Hardly to be mentioned among them are the crimes of the Papacy, which at bottom were crimes of secular ambition.

But the religious sentiment is not to be overlooked such an historical fact as Christendom. Even those who have most thoroughly rejected the Christian religion are still living in the penumbra of Christianity.

Then comes the question, What is the origin of religion? The tendency appears to be almost universal, showing itself independently in every member of the human race, saving perhaps the few who are savages.

There must be some rational account of it, and it is difficult to see how that account could be found in evolution or in anything but physical science. Such an explanation of the origin of religion as the apparition of dead chiefs in the clouds is to be totally inadequate.

Let us be thorough loyal to science and embrace all its real discoveries, however abhorrent to our traditions. But let us ask for recognition of all the phenomena of human nature, not only those which are demonstrably physical, but also those which appear to belong to another class.

May not a man be doing what is at present regarded as absolutely irrational, but which is in fact a religious act? He is not to be judged by the standards of the dogmatic carry us at first too far?

Toronto, Aug. 20. Goldwin Smith.

DRIVING OUT MOSQUITOES. Measures Taken in the Southern Province Are Effective.

London, Aug. 23.—Major Penton, the principal medical officer of the Sudan, gives an interesting report on the results of measures for the prevention of malaria.

Isaiah is the pest of the Sudan, and is practically free of mosquitoes and nets may almost be dispensed with.

Statistics in regard to the health of the Sudan show that from Jan. 1 to June 30, 1903, was the healthiest period in record.

There were only three cases of malaria in the hospitals, as compared with 86 in the corresponding period of 1902.

While throughout the year there were 569 cases from Jan. 1 to May 30, 1902, the average for the same period in 1903 was only 72.

Many of these cases were probably relapses from previous cases.

Major Penton suggests that when the present operations against mosquitoes are completed malarial fever will practically have disappeared.

EAST END NOTES. A van load of boys from Broadview Institute visited Denison Park rink on Saturday.

Tonight Wm. Remie, the comedian, will lecture to those interested in character and nature study.

Mr. Longstreet, formerly drill instructor, addressed the boys yesterday and will have charge of a drill class again this fall.

A number of east-enders attended the Taylor Safe Works excursion to the Falls on Saturday.

SIMPSON COMPANY LIMITED

H. H. Fudger (President); J. Wood, Manager. August 24. STORE CLOSURE AT 5.30

Four Hundred Odd Coats. Men's and Boys' Coats.

Coats without waistcoat or trousers to match. Much the oddest thing about these Coats is the price.

No one could guess why the manufacturer should want to give away these elegant Coats belonging to

Eight Dollar Suits. He did it though. He just gave them to us. In fact we persuaded him to do it that we might pass them out to you Tuesday at the same fraction of a price the "old clo" man gives for cast-off garments.

The Rain Coats are another lot, but just about as cheap. While you're on the Coat buying errand you'll pick up one of these to keep the other dry and you'll own the two at much less than the real value of one.

Coat sale begins at 8 o'clock. 300 Men's Odd Tweed and Serge Coats, the tweeds come in a variety of patterns, stripes, checks and plain colors, made single and some double-breasted saque style; these are odd from \$5.00, \$6.00, \$7.00 and \$8.00 suits, sizes 34 to 42, to clear Tuesday at \$2.19

100 Boys' Odd Coats, mostly navy blue werges and plain grey tweeds, odds from \$3.50, \$4.00 and \$4.50 suits, sizes 28 to 33, to clear Tuesday at \$1.29

\$1.00 Men's Waterproof Coats, on sale Tuesday at \$3.75. Dark Oxford Grey and Fawn English Coverlet Cloth, made up in the raincoat style, with vertical pockets, and cuffs on the sleeve. Made with fancy plaid linings, seams sewn and taped, sizes 36 to 48, Tuesday at \$3.75

Men's 50c Belts, 15c. Best Belts of the season. Good solid leather and buckles, but smart looking. Nothing clumsy about them. Best dressed men who don't own are wearing the same kind of Belts. 240 of them at 15c apiece in the Men's Store to-morrow.

20 dozen Men's and Boys' Belts, this balance of a large belt maker's over makes, all nice new goods, correct styles in patent leathers, all made with ring sides, solid buckles, regular price would be 40c and 50c, on sale Tuesday, to clear at each, while they last .15

32 dozen Men's Flannel-shirt, made from good quality material, neat fancy stripes, collar attached, large bodies, full length, strongly sewn, sizes 14 to 16 1/2, regular price 35c and 40c, on sale Tuesday to clear, each .21

The Great \$3.50 Shoe for Men. Labor Day demands a new pair of boots. Generally about that time anyhow. Now the Victor is a good, sound, thoroughly made union shoe and Labor Day is a particularly appropriate time to put on a new pair.

For sale only at this store. All widths, sizes and styles. Men's Soft Hats, new American styles, in heavy curl, or flat set, brims, raw or bound on edge, colors slate, grey and black, good value at \$2.00, special at \$1.50

Men's Derby Hats, fine quality English fur felt, up to date styles, medium crown and brim, pure silk bindings and calf leather sweat bands, color black only, a \$2 value, Tuesday for \$1.50

\$3.00 Framed Pictures, 98c. 1000 Underpriced Etchings, Artotypes, Photo Colors, Etc., Framed and Mounted.

Our Picture Department is noted for modest prices on the proudest Pictures, but here is a case where it has excelled itself. When we ran across the Pictures first they were in unappreciated frames. The dealer couldn't sell them—they were "sidetracked" in his warehouse. He hadn't time to bother with them. New lines took their place. Well, our buyer got them cheap. Then he bought a big lot of pretty moulding at a quantity discount and changed the frames in our own workshop. To-morrow they'll be ready and out they go at 98c apiece. There are 1000 of them in every variety almost, but you had better come at 8 in the morning all the same.

1000 Etchings, Artotypes and Photo Colors, framed in brown, gilt or green with burnish, also black, 3-in. mouldings, with neat ornamentation, landscape and figure subjects, well worth from \$2.00 to \$3.00 each, on sale Tuesday, 8 a.m., at \$1.50

French Statuary for Sale Tuesday. In the reproduction of expensive works of art at popular prices a French manufacturer has won great fame. These "copies," which only a connoisseur could tell from genuine French bronzes cost only about one-tenth of the price. We have a sample collection, about forty pieces in all—we think the first shown in Canada—on sale Tuesday, Main Aisle, North Store. Prices range from two to fifteen dollars. They'll be snapped up quickly. Eight o'clock choice is best.

40 Samples French Statuary, gold burnished and mounted on marble base, including candelabra, statuettes, vases, allegorical and classical figures, prices range from \$2.00 to \$15.00.

Furniture Sale's "Specials" for Tuesday. Let's count the days. Tuesday's the 24th. Tuesday week is the first of September. That's six shopping days left in the Furniture Sale month. Don't "cut it too fine," as the train dispatchers say. Don't leave it until the last minute. One might just as well act NOW in almost every occasion, and very often indeed, it is much better to do so. Certainly you should act promptly when saving opportunities like these offered Tuesday are before you. To-morrow is next best only to to-day.
