E. De La Hooke GREAT EARNINGS G. T. R., or W. Fulton

OF THE C. P. R.

Year — Twenty Years Existence. Montreal, July 1.—The Canadian Pacific Railway on Friday closed its fiscal year with gross earnings aggregating \$60,000.000.

It was just twenty years last Thursday, night (June 28) that the first through C. P. R. train pulled out of the old Dal-housie Square station on its long journey, to Vancouver.

It is certainly a marvelous achievement to have earned over \$60,000,000 during the past year. It means that in every month of the year the C. P. R. earnings were

over \$5,000,000, and that in every single week earnings above \$1,150,000 were

in excess of those of last year, and over \$20,000,000 in excess of those of the year. The C. P. R. management has decided upon the construction of a new line in the Kootenay and Boundary Creek region, which will, it is expected, anticipate and meet the competition of the Victoria-Vancouver and Eastern system, sanctioned at the last session of the Dominion Parliament, and backed, it is said, by J. J. Hill, the directing genius of the Great Northern.

The new line when completed will probably form a junction with the main line Hope, which is less than 100 miles east at Hope, which is less than 100 miles east of Vancouver.

Its completion will mark the commencement of what promises to be a keen fight between the Canadian company and Mr. Hill for the traffic of the mineral district, which the C. P. R. is determined to hold be the cost what it may

Wreck and Loss of Life Averted by Signal-Keeper's Presence of Mind.

Paris, June 31.-Last night the express train from Calais to Brindist, carrying the Indian mail and having on board a large number of English passengers, narrowly escaped destruction. A catastrophe was only averted by the presence of mind of the keeper of the French end to the tunnel leading into It appears that in consequence of the

displacement of the bed of the Aiver

Arc it had been found necessary to

place a temporary point near the Saint

Antoine torrent. Owing, it is supposed,

to some accident, the point was wrong-

ly set, and the Brindisi express ran off

the down line on to the up sine, and continued running at a speed of 60 miles an hour on the wrong set metals for several miles with driver perceiving what had happened, it being dark at the time. The keeper of the French end of the tunnel, however, saw what had happened, and set all his signals against the express, with the result that the
