Hamar Greenwood, under-secretary of the foreign office for the overseas trade department, speaking in Parliament tonight, said: "Six commercial secretaries already have been appointed to Latin-American countries, and appointment of three more is in immediate prospect. In addition, special commissioners already are engaged under the joint auspices of the department of overseas trade, and appropriate trade associations, in investigating possibilities of British engineering products and in studying the South American market for jewelry and electro-plate.

Von Heinrich, Former Military Governor of Lille, Said To Have Ordered Execution of Frenchmen After Granting Permission To Have Their Cases Appealed to Emperor.

Lille, France, Aug. 19.—Evidence adduced before the French military court inquiring into crimes committed by the Germans during the occupation indicates that a charge of murder may be brought against Von Heinrich, a former military governor of Lille.

Testimony against Von Heinrich was given today by Madame Jacques and Madame Martens, widows of men shot by the Germans. It was testified that after sentence of death had been passed on Jacques and Martens, Von Heinrich authorized the lawyers of the condemned men to appeal to the German emperor. While the appeal was being made, Von Heinrich, it was declared, ordered that the men be executed, and they were shot 24 hours later.

Dr. Van Heuberg, a resident of Fives, near Lille, told the court that he had seen Von Heinrich, and that he had seen the bodies of the murdered men in the cellar of the doctor's house. He testified that the bodies were found in the cellar of the doctor's house, and that he had seen the bodies of the murdered men in the cellar of the doctor's house.

FRENCH PLAN FIGHT ON DRY MOVEMENT

Mine Producers Fear Spread of Campaign to Britain.

Paris, Aug. 19.—The National Wine Syndicate and the International Wine Committee, two bodies which rule the production and distribution of European wine, alarmed by the success of the "pussy-foot campaign" in America and its extension to Great Britain, have decided to form a special committee for world defence of wine against its enemies.

The French are a temperate race, and are completely unable to understand why, because there are a minority of people who do not know how to drink, those who do understand the use of and do not abuse good liquor, should be sacrificed.

Throughout the war, trade with Great Britain has suffered severely, and now the stoppage of the market American and a threatened "pussy-foot campaign" in England, bring wine growers face to face with serious problems.

CANADIAN FARMER WILL RECEIVE \$2.15 AND THE ADVANCE

Price Set by Government Is the Initial and Not Fixed Figure.

FIXED PRICE IN U. S.

Growers in Canada To Get the Benefit If Price Goes Up.

Ottawa, Aug. 20.—Telegrams and communications received by the Government, as well as comments made by brokers and others interested in the wheat trade, indicate that the Government's action in fixing an initial price for wheat to be paid to the farmers by the wheat control board, is still misunderstood in many quarters.

It is assumed by many, apparently, that the initial price of \$2.15, announced on Monday by the Government, is a fixed price and that no matter what the price of wheat may be, the farmers will not receive more than that figure. On behalf of the Government it was pointed out this morning to a representative of the Canadian Press that, in the case of the Canadian farmer, he gets what the market of the world will give him. If the price of wheat should go to \$2.50, \$2.40 or \$2.50, the farmer will get the benefit.

U. S. Farmers Get Fixed Price.

On the other hand, in the United States, where a price has been definitely fixed, the farmer will simply get the fixed price.

The object of the Government, it was further explained, was not to limit to any price or estimate the price that the farmer should obtain but rather to make sure that he should receive the highest possible initial payment upon the crop. The Government through the Canadian wheat board undertakes to sell the surplus crop, not at a fixed price but at the best world price available, and to turn back to the farmer free from all speculative and profiteering charges the balance of the price received for his grain over and above the initial payment of \$2.15.

It was further pointed out that the United States price was fixed before the war was over on the assumption that the world market would continue. Had that not been done it is not regarded as probable that the United States price would have made a fixed price, but as it is, the United States farmers get the fixed price and no more.
