NOTICE IS HEREBY GIVEN Montreal, May 14.—On Sunday, May 16, baby welfare week in Montreal will start. In the past, this has been found to be one of the most successful methods of calling the public's attention to the conditions against which babies have to contend. The baby welfare committee state that out of every hundred babies born in this city, nineteen die during their first year of existence, as compared with eight in Toronto and New York. This makes the infant mortality in Montreal greater than in any other city on the continent.
