MAINE POPULATION.—The ocean teems with life... The class of pelagic fishes are only true Linnæus...

Somewhat was dilating upon an affair that has already excited considerable commiseration in the columns of our contemporaries—the rejection of Mr. C. by Miss Day, the beautiful daughter of the great blacking-manufacturer, Mr. C., it appears, is acquainted with Rogers, to whom he repaired for confidence upon the unsuccessful result of his suit.

Person had once expatiated a deplorable by the dryness of his sermon. The petulant opponent at length addressed the professor thus: "Mr. Porson, I beg leave to tell you, sir, that my opinion of you is perfectly contemptible." Porson replied, "I never knew an opinion of your's sir, that was not contemptible."

The widow of a grocer at Mont de Marsan, (Ain), on the 10th of January, raised a prize in the lottery, amounting to 40,000 francs, but her joy was so excessive that she died in the office on receiving the money.

A lady, residing at Mont de Marsan, on a nervous disorder, was attended by a physician, and at last a detail of her symptoms, as manifested with long referred to her, "What is the matter with you?" she inquired, "I have a complaint, the physician has prescribed the treatment of her complaints, she persisted in endeavouring to extract further information from Mr. Abernethy. After suffering her volubility with considerable patience for a while, he exclaimed to the repeated "May I tell you, Doctor? May I eat supper?" "I'll tell you, Madam, you may eat any thing but the poker and bellows; for one is too hard for digestion and the other is full of wind."

FIRE INSURANCE. DEW. RATCHFORD, AGENT for the Atlantic Insurance Company, of Hartford, Connecticut, continues to issue policies, and renewal receipts, for Insurances on Houses, Sheds, Stores, Mills, and other buildings, vessels in port, or on the stocks, Household Furniture, Farmers' Stock and Utensils, Merchandise, Machinery, and every other description of property, against Loss or damage by Fire, on liberal terms.—It is a notorious fact, that the subject of insuring against fire, does not receive from the inhabitants of this Province that attention which its importance demands; and the premiums for fire insurances particularly, bear so very small a proportion to the value of the property insured, that much less sympathy is felt for those sufferers who may have been obliged to avail themselves of the means of providing against such calamities. The capital of this Company, \$200,000, has been judiciously invested in the best securities; independently of which, a RESERVE FUND of more than \$25,000 has been set apart to meet the occasional claims for losses, and the stock bears a high premium. The Agent will at all times attend personally to the survey of buildings on which insurance is desired, while in the City; and applications in writing (post paid) from all other parts of the Province, describing the situation and the property to be insured, will receive prompt attention. Saint John, N. B. 15th November, 1831.
