Eustace & Temple's Invaluable Gonorrhea Mixture.

A Tlength has been discovered an infallible and invaluable remedy for the cure of the most obstinate chronic and common cases of Gonorhæa in five days. The daugerous and useless remedies which have hitherto been offered to those who have unfortunately incurred the above troublesme discusse. is a subject which has justly merited the censure of the faculty, and produced in many cases, very serious and slamming effects. To guard against these abuses, Eustace & Temple have been induced to prepare a preparation which is attended with no dauger whatever, and is active and efficient in curing the disease, with little trouble to the patient. The proprietors have been studious in this particular, as many persons cannot spare the time, or suspend business, to undergo a regular course of medicine and regimen—this preparation will entirely obviate this necessity. The course to be pursued is exceedingly simple, and will not interfere with the regular daties of business; and if the medicine is used according to the directions, it will effect a speedy cure in five days. As to its decided efficacies, we will larely remark, that since its use in this city, there has not been a failure in a single case, and there are many both of the faculty and otherwise, that have already testified with pleasure to its decided superior qualities. Its taste is perfectly agreeable, and persons of the most delicate stomachs have used it without any inconvenience whatever.

DEPILATORY POWDER,

For removing all superfluous hair. Dr. Spohn's Elixir of Health.

The leading points to theory upon which the great use of this Syrup is predicated, is that the stomach is the seat of all diseases of a feverish nature, and any disorder incident to the stomach is cured by this article. There is therefore no fever or cold, asthma, inflammation or debility, or sickness at stomach, (except with females, encients.) or dysensies, or jaundice, or dysepsia, but what is will cure. The only thing is that people should be patient and depend, upon it. For asthma it has no equal.
