To Renew Complexion Without Cosmetics

If the excessive use of cosmetics only makes the complexion more artificial, why not seek means of gaining a natural complexion. Let the complexion be renewed by the use of the "Sargol" treatment. It is a simple, harmless and marvellously effective treatment. It is a simple, harmless and marvellously effective treatment. It is a simple, harmless and marvellously effective treatment.

What Thin Folks Should Do To Gain Weight

PHYSICIAN'S ADVICE FOR THIN, UNDEVELOPED MEN AND WOMEN

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs, who, having tried advertised flesh-makers, food-fads, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered regenerative force makes fat grow after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Six strengthening, fat-producing elements of acknowledged merit have been combined in this peerless preparation, which is used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A month's systematic use of Sargol should produce flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are provided. Leading druggists supply Sargol and say there is a large demand for it. While this new preparation has given splendid results as a nerve-tonic and Vitalizer, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.

Another Phenomenal Special For Thursday--Doors Open at 8 O'clock

WHEN OUR DOORS CRASH OPEN THURSDAY MORNING

At eight o'clock we will sell this piano to the first buyer that says the word. This is a beautiful full size 7-1-3 octave piano, beautiful tone, stool to match, delivered into your home anywhere in Canada. This is the greatest and grandest piano offer ever made to the St. John public. If this piano sold for \$500 it would not be one bit better nor wear one day longer. A word to the wise is sufficient. Remember, be here at 8 o'clock. Look at this price.

THE FINAL HOUR APPROACHES

It is now only a matter of hours when this Great Sale will be history. Hundreds of people have purchased and are delighted. We have a number of our most expensive styles still on hand, and in a last desperate effort to sell our best grades, we have cut the heart out of every Piano price in the house. Think of such "Pianos" as "Amberst," "Satinet," "Gerhard Heintzman," "Kaufmann," "Whitman," "Haynes" and scores of others being sacrificed at nearly half of their original cost. Come in at once. You do not have to buy.

OUT-OF-TOWN BUYERS, ATTENTION!

Please do not write to us and ask us to hold a Piano for you. We have now several hundred letters, telegrams, etc., from out-of-town people, asking us to hold Pianos. It is the early bird that catches the early worm, and the man who is here with his money in his hand, is the man that gets the bargain. Don't write. Get on a train and come here prepared to do business. We will sell you a high-grade Piano so cheap that it will be a revelation to you. Don't miss this sale. Its like will never be duplicated.

of beer lowers a man's efficiency 7 per cent.

The poster published by the highest medical authorities in Great Britain, giving scientific reasons why soldiers should be total abstainers, was alluded to, and a large number of the leading members of the profession cited as being totally opposed to the use of alcohol as a beverage or as a medicine. Sir Victor Horsley, the greatest specialist in the world on brain diseases, states that he knows seven diseases directly caused by the use of alcohol, and twenty-seven to which it is a contributory cause.

"What has produced this revolution?" and the lecturer. Many causes have been at work, but there is no doubt that alcohol has been tried at the bar of scientific medical research and a verdict has been rendered against it.

An instance of the value of even partial prohibition was given by Dr. Tees, who had been on the emergency staff of the Montreal General Hospital, when the by-law closing the saloons at 7 o'clock on Saturday evenings was enacted. The immediate effect was to cut down the emergency cases on that evening to zero, and whereas the staff had been obliged to stay up all night previously, after the by-law was passed they could all go to bed, as there was nothing for them to do.

Are you worried about Baby?

HOW to Feed Baby is often a great worry to mothers who are unable to nurse their babies themselves. Ordinary cow's milk—however prepared at home—is not a suitable substitute for the mother's milk. It is acid in reaction, contains harmful germs and forms dense curds in the stomach that cannot be digested. Decide to use the "Allenburys' Foods" which are the only series of Foods scientifically adapted to the growing requirements of the child. You will be delighted when you see how well your baby thrives on this method of Infant Feeding.

The "Allenburys' Foods" are from all dangerous organisms; they are portable, being in powder form and packed in sealed tins. The Milk Foods Nos. 1 and 2 require the addition of hot water only to prepare them for use.
