He pointed out that there had been raised a St. John a sum that was three times is great as the total of any previous ampaign and he felt that this fact tould give confidence to workers in any future campaign. Aside from the support obtained for the orphanage, which of course was the main issue in the matter, the campaign would be of ceal benefit to the city and province in that it had fostered a spirit of co-operation. Last year at this time there was so much snow shoveling to be done for the city, the street railway and the two railway companies, as well as the casual work of cleaning sidewalks for citizens, that the labor problem was pretty well cared for. From the last week in November of this year Mr. Ryan said there had been much sickness to add to the distress in the city and that there were many wage earners out of those families which would need assistance at Christimas time was rather longer than in other years and although the response had been liberal there were many families that were not yet provided for.
