

BROADCAST FROM HERE SUCCESSFUL

Saint John Musicians Give Concert by 'Phone to Moncton, Thence by Radio.

The excellent concert programme which was broadcast by CNRA, Moncton, from Saint John last night, sent by telephone to Moncton, where it was given over the air at the sending station, was heard to perfection in Nova Scotia and New Brunswick centres, but some fear of the air or possibly some local interference prevented Saint John radio fans from catching the first numbers clearly. Whatever had caused the trouble locally had cleared away after the first four or five numbers and city fans were regaled with a genuine treat.

The initial venture was so successful that it is altogether likely that Saint John will figure frequently as a broadcasting centre in the future.

George A. Wright, broadcasting manager for CNRA, conducted the concert and Gordon Olive, of the radio department of the C. N. R., was the operator. Dr. P. L. Bonnell, baritone, was directing the programme and was one of the performers. It was an all-star cast and one of the best concerts that has yet been given.

Others taking part were Miss Josephine Lynch, Miss Nellie Lynch, Mrs. M. A. Quinn, Mrs. L. M. Curran, Mrs. F. G. Spencer, Miss Blenda Thomson, Miss Constance Lewis, Mrs. J. M. Barnes and William McGowan. The Moncton studio reported that many telephone calls had come in extending hearty congratulations on the excellence of the concert and the clearness with which it was heard. Telegrams came in also from Silver Glade, Amherst and several Nova Scotia towns and they all were in the same vein.

But Saint John fans were having a hard time of it at first and several telephone calls were sent to the Pyralis Castle, where the concert was being given, making inquiry if the concert really was taking place.

Rotarians Heard It

F. E. Vroom, the lighting expert of Hamilton, gave in his address before the Rotary Club on Monday, one reason for the fact that four in five need Glasses. As reported in yesterday's paper:

The speaker prefaced his illustrated talk by a brief but comprehensive review of the development of illumination from the earliest time, and then made it clear that because of carelessness or lack of knowledge the best results from present lighting systems are not secured in homes, factories and stores, with a resulting strain upon the eyesight, which is quite unnecessary.

Sharpes Glasses correct eyestrain and give normal vision to eyes thrown "off their stride" by the after effects of strain.

A dollar a week obtains the best at no extra over cash prices.
