

MURDER AND SUICIDE.

AMSTERDAM, N. Y., Nov. 2.—At 2 o'clock this morning Frederick Bankert gained admittance to the apartment of Wm. Green, who lived in the second story of a house on Elizabeth street. He killed Green by shooting him in the neck with a revolver and splitting his head open with a hatchet. Bankert also shot Mrs. Green and cut her head open with the hatchet, inflicting fatal wounds. Bankert then shot himself through the heart, dying instantly. Bankert gained entrance to Green's apartment by climbing up a rope ladder on the outside of the building and entering a window.

PALL-BEARERS UNION.

CHICAGO, Nov. 2.—The newest labor organization in Chicago is the Pall-bearers union, formed by about 60 men who gain a livelihood in the service of undertakers. The new union will establish a minimum scale of wages and prescribe other regulations which its members hope to enforce. The Undertakers' Association is said to look upon the new organization with favor. Theodore Muckmann and Anthony Applegate came from Washington, D. C., to organize the union, and it is said, they will apply to the American Federation of Labor for a charter for the Chicago lodge and another in Washington.

MRS. MCKINLEY'S MINING VENTURE

PHOENIX, Ariz., Nov. 2.—Articles of incorporation of the McKinley Mining and Smelting company have been filed with the territorial secretary. The capital stock is \$1,000,000. The mine is in Nevada, and is the property of Mrs. Wm. McKinley and her sister, Mrs. Barbara, and has been in the Saxon family for a long time. The principal places of business are Canton, Ohio, and Elmira, N. Y. Among the incorporators are Mrs. Barbara W. Lypho, W. D. Smith and other bankers and lawyers of Canton and Elmira.

A \$1,500,000 ARCH.

WASHINGTON, Nov. 1.—At a meeting of the executive committee of the Wm. McKinley National Memorial Arch Association today it was determined on motion of Secretary Gage, the treasurer of the association, to attempt to raise \$1,500,000 for erecting the proposed arch. Material progress was reported by the executive committee in the work of preparation for raising subscriptions.

A SOUTHERN TRAGEDY.

SHREVEPORT, La., Nov. 1.—At Greenwood, La., 15 miles from Shreveport, Wash. Lyons, colored, entered the home of Victoria Anderson, colored, and found her in the company of Charles Williams, colored. He shot Victoria dead and Williams was fatally wounded. Lyons then killed himself.

THE BODY OF CZOLGOSZ.

Was Disintegrated By Acid-His Relatives After His Life Insurance.

AUBURN, N. Y., Oct. 28.—Naturally almost the entire attention of the physicians assigned to hold the autopsy was directed towards discovering if possible, whether the assassin, Czolgosz, was in any way mentally irresponsible. The autopsy was conducted by Dr. Carlos F. McDonald, an expert alienist and former president of the New York state lunacy commission; Dr. E. A. Spitzka of New York, and Prison Physician Gerin. The top of the head was sawed off through the thickest part of the skull, which was found to be of normal thickness and was the unanimous agreement after the microscopic examination that the brain was normal or slightly above normal. This demonstrated to the satisfaction of the physicians that in no way was Czolgosz's mental condition, except as it might have been perverted, responsible for the crime. The autopsy was completed shortly before noon. The body was then placed in a black stained pine coffin, every portion of the anatomy being replaced. Shortly afterward it was taken to the prison cemetery and an extraordinary precaution taken to completely destroy it. A few days under the wagon, and in order 12 pounds of meat was placed in a glass jar and the same proportion of quick lime which would be used to consume the human body, was placed in the jar. It was found upon examination today that the meat had shown little sign of disintegration. Warden Mead at once conferred with some of the physicians present and determined that as the purpose of the law was the destruction of the body, it was not necessary for him to confine himself to the use of the quick-lime.

Accordingly a carboy of acid was obtained and poured upon the body in the coffin after it had been lowered into the grave. It was used in the four corners of the grave as the earth was put in, to give vent to such gases as might form.

It is the belief of the physicians that the body will be entirely disintegrated within 12 hours. During that time and as long as deemed necessary a guard will be kept over the unmarked grave.

At noon the autopsy surgeons issued the following brief statement: "The autopsy was made by Edward A. Spitzka of New York, under the immediate supervision and direction of Dr. Carl F. McDonald, of New York, and Dr. John Gerin, prison physician. The autopsy occupied over three hours and embraced a careful examination of all the bodily organs, including the brain. The examination revealed a perfectly healthy state of all the organs, including the brain."

Waldeck, Charles and Waldeck Thomas Randowald, brother and brother-in-law of the assassin, called at the prison at two o'clock this afternoon. They went under to see the body of Leon Czolgosz. The warden told them that the body had been buried for more than an hour. They said they were anxious to arrange for the collection of the insurance on the life of the dead murderer and asked a certificate of death be given to them. The warden promised them a certificate and they departed. The insurance which they talked of is supposed to be in a fraternal society to which the murderer belonged.

CANADIAN RAILWAYMEN.

OTTAWA, Oct. 30.—A movement is on foot to organize an order to be known as the Canadian Order of Railwaymen, independent of the international bodies, which control the various orders in Canada. Those directly interested in the movements are the engineers, the firemen, the trainmen, the conductors and the telegraphers.

Recent developments are responsible for the new movement, as it has been demonstrated to Canadian railroad men that as an organized body they have no prestige in their own country, owing to their connection with international organizations. Canadian railway men remit over \$150,000 a year to the headquarters of these international associations in the United States.

If sufficient encouragement is given to the movement, steps will be taken to call a convention to meet at Ottawa about Nov. 20 to establish a grand division. In the prospectus just issued, and distributed among railwaymen in this city, it is set out that the objects of the new organization are: to bring the five classes of railway labor in Canada into closer contact for their mutual benefit and protection; to make it a national organization to be conducted and governed by Canadian executives; to further the interests of the members and form a fraternal body to assist its members in sickness or disability; to provide an insurance department; to promote favorable legislation for railway employees, and to oppose unjust anti-railway legislation; to limit by practice and organization any excessive supply of skilled railway employees in the operating departments for the purpose of alleviating the privations and sufferings which bear heavily on the unemployed railway wage earners, and indirectly upon all engaged in transportation, through the unnecessary over-production of railway employees, and to protect the interests of its members under all conditions that may arise.

The proposed order will curtail expenses by doing away with class organizations and placing the affairs in one corporate body, rendering it unnecessary to contribute to the maintenance of five grand lodges, and finally to insure recognition with railway property management by placing affairs in the hands of grand officers, who are British subjects and, therefore, not liable to be placed in the humiliating position of being refused an audience on account of being foreigners.

That Canadians are fully competent to manage their own affairs there is no room for doubt, as there are in Canada some of the best men in the railway service.

TO CURE A GOLD IN ONE DAY.

WACO, Tex., Nov. 1.—J. W. McDonald and his wife Susan were shot from ambush from the bank of the Brazos River near the Dallas county line, and both were killed. They were fishing and were near their tent when someone fired upon them. McDonald was about 60 yards from the tent when he was shot in the head. The wife was 100 yards away and the shot was evidently very close for the woman's clothing took fire and her body was burned to a crisp.

The murderer was evidently after money, for McDonald had some in his tent. A son, nine years old, was found near the place and brought to this city. His head was badly lacerated and he was in a dazed condition. Bicycles and all athletes depend on Bentley's Liniment to keep their joints limber and muscles in trim.

WAY TO A MAN'S HEART.

Becky Gross's Dinner Found That to Mr. Morgalestein's and They're Wedded.

(New York Sun.)
Magistrate Deuel in the Essex Market police court yesterday was approached by a young man and a beautiful-looking girl who said they wanted to get married.

"It was a case of love and der first dinner," said the young man, when questioned by the Magistrate. "I go by her house and I saw her father. She cooed der dinner and I was such a lovely cooing dot I fall in love right away."

"I'll marry you," said the magistrate. "Good cooking will sometimes reach a man's heart when poetry and sentiment won't. Old maid might grasp at this as a straw, but all women ought to know it."

The couple described themselves as Morris Morgalestein and Rebecca Gross of 164 Orchard street. Roundsmen Casey kissed the bride after the ceremony and received an invitation to call and try one of the dinners. On her promise to prepare a feast of corned beef and cabbage, Casey accepted the invitation.

GUN AND BIBLE.

A Philadelphia Episcopal clergyman expresses opposition to any effort on the part of his denomination to engage in missionary work in the Philippines. He says the Roman Catholics have the field, and he thinks they had better be permitted to keep it. As long as the Philippines feel toward us as they apparently do now, we should say that the prospect of converting them to any head-quarters in this country is not very good. While we have to carry a gun in one hand it will be practically useless to carry a Bible in the other. Perhaps when they get thoroughly reconciled to our rule the Philippines may be ready to receive religious instruction from us, but the chance of enlisting their attention to Protestant doctrines under existing circumstances, is rather small.

ALTOGETHER TOO SLOW.

(The Smart Set.)
Cholly—So you think I am too slow for any use?
Sho—Yes. You don't even make the other young men jealous.
