STREET CARS WON'T RUN TO DUCK COVE.  
Will Stop at the New Park, A Mile From the Shore.

It now appears that the street railway company are not going to carry the suburban branch as far as Duck Cove, but that the line will stop nearly a mile short of that point. The branch will go as far as the DeMill property, which the company has acquired, and which is a considerable distance from Duck Cove. Some time in the future the company may extend the line to Duck Cove.

The track is now nearly all laid. The work of erecting the trolley posts will be commenced tomorrow. The company will probably bring an architect from New York to lay out their park. Permission has been obtained from the C. P. R. to carry the cars over the Cantlebridge, every morning and night.

## NO MORE CHAPMAN FESTIVALS.

Famous Musical Director is to Become Conductor of Mme. Schumann-Heink's Opera Co.

Director Wm. R. Chapman of the Maine musical festival, has under consideration an offer to support Mme. Schumann-Heink during the coming season, says the Bangor Commercial. His acceptance, however, would mean his resignation from his festival work in this state. He has until June 15 to make his decision and while he says he is favorably impressed with the inducements held out, he has not definitely decided what action he will take in the matter.

It is understood that Director Chapman is disappointed with the financial result of this season's festival and that if he accepts, this fact will have much in influencing his decision. Bangor people, however, who deplore the possibility of Director Chapman's leaving, say that his interest in the establishment of a department of music in the benefit of the schools may cause him to remain.

Commenting on the report the Portland Express says:  
"E. A. Noyes, one of the leaders of the festival in this city gave some additional details in regard to Director Chapman's offer and the festival this year."

He stated that Mme. Schumann-Heink regards Director Chapman as one of the greatest conductors in the world in his line who is conducting choruses and orchestras. He said that there was no question of his superiority in this work. It seemed to be the opinion today that Director Chapman would accept Mme. Schumann-Heink's offer in regard to the alleged differences between the two men and the company, said that no trouble is feared, and that strikes is an impossibility unless the company are irrational enough to force it upon the men. The request for increased wages is made equally by union and non-union men, and it is believed that the company will give the request the consideration which it deserves and possibly accede to it in full. The increase in wages asked is 11-12 cents more per hour.

Regarding the matter of wages, the members of the union who spoke to the Star said that the employees of the road are the most poorly paid in Canada. The increase they ask is justly due them, they claim, and they trust that the company will come to see the fairness of their demand.

PASSENGERS COMPLAIN.

Vigorous Kicks re Management Hampton-St. Martins Railway.

There is considerable complaint and pretty considerable discontent among the passengers of the Hampton-St. Martins Railway is being run. A complaint was lodged with the Star this morning that when there is trouble on that line the ticket offices at this city are not notified and passengers are taken to Hampton only to find that the St. Martins train is tied up. It is then a case of drive over a bad road, wait till repairs are made, or come back to St. John, and this all costs money. The other day eleven passengers got off the train from St. John at Hampton, intending to go to St. Martins. They were informed that the train would not run that day, as there was something wrong. The passengers claim that the accident occurred the day previous and there was sufficient time to notify the ticket office here that the road was tied up.

As it was, the majority of the little band of travellers were anxious to get to St. Martins and hired a team. The others purchased tickets for the city and came home, not any too well pleased and out of pocket two first class fares to Hampton.

**DOG LICENSE RECORDS BEATEN.**  
More dog licenses have been taken out this year up to the present than ever before. The police of the southern division have only been able to locate 289 dogs that their owners have not taken out a license for, while on the West Side but 62 have not been paid for. The North End has not as yet been heard from, but the police think it will be the banner division, slightly exceeding in number of dogs without a license the Southern division.

**PROBATE COURT.**  
The last will of the late Ida M. Roberts was admitted to probate this morning and letters testamentary were granted to John C. Wild, the executor named in the will. The estate is valued at \$12,000 real and \$2,027 personal property and goes to the executor, Thomas F. Rogers, executor.

**FAIRVILLE FIRE WARDENS' DEFENCE.**

Since the late fire at Fairville, some one either afraid or not willing to sign their name, has made a statement in your paper that the attention of the fire wardens has been called to the fact of people burning rubbish in yards, etc., about Fairville. This is not true, the attention of the present fire wardens, who have been in office for several years, has never been called to the above by anybody, but we have stopped severe from burning rubbish about their premises and even warned the C. P. R. brakemen about burning old sleepers, etc., for fear any might be done by so doing.

He bore up bravely until the arrival of the ambulance, which was sent for and which took him to the hospital. Word from the hospital at noon said that the injured lad was resting comfortably.

He has been at sea 45 years, 34 of them in the service of the Cunard Company, 14 of whose vessels he has commanded. For one with so long an experience, his record is probably unique.
