

Bowel Troubles

Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move—stop taking purgatives and the bowels become "tight" again.

"Fruit-a-lives" are the one certain cure for Constipation

because their action is upon the liver. "Fruit-a-lives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation.

"Fruit-a-lives are fruit juices with tonics and antiseptics added. In "Fruit-a-lives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. 50c. a box—\$2.50 for 6 boxes. T. S. SIMMS TO VISIT INDIA MISSION FIELD

On Tour of World, Will Go to India as Member of Baptist Board; Wedding of Two Missionaries.

At a meeting of the United Baptist Foreign Mission board Wednesday arrangements were made by which T. S. Simms, who will leave here on the 8th inst., on a tour of the world to visit the stations in India. Mr. Simms, who is a member of the board, will endeavor to meet the different missionaries in the course of his travels. There are seven stations in India at which the United Baptist church have representatives and it is the first time that a member of the foreign mission board will visit the field.

Interesting letters were read from members of the last missionary party who sailed, announcing their safe arrival in India. The letters also bore tidings of an interesting and happy event. This was the marriage of one of the number, Miss Carrie Freeman, at Vizir Nagrav. Rev. Mr. Freeman has been stationed at Parik-Kimedy since October, 1902.

The other business of the meeting was largely routine. Rev. M. E. Fletcher, of St. George, who will assume the pastorate of the Charlotte street church, was appointed a member of the board.

Mr. Adams, who has been in charge of the building, was also present.

Mr. Adams said last evening that this would be the last of the work done before the fire was entirely subdued, and it left the place a mere heap of ruins. One side had entirely caved in, and what was left appeared very shaky.
