MILLIONS OF PEOPLE IN AGONY

Physicians Cornered!

I suppose there is not in the whole of a physician's vocabulary a more common term than "rheumatism." It is a name which only tells the sufferer that he is in pain, and does not tell him where the pain is, or what it is, or how to get rid of it. It is a name which only tells the sufferer that he is in pain, and does not tell him where the pain is, or what it is, or how to get rid of it.

Concerning General Open Communication with the Spirit World—Dialogue with a Spirit.

Q.—From so important and startling a development as general open communication with the Spirit World, it would seem that we would have a right to expect some conspicuous good to mankind; yet, although the thing has been before the world for nearly twenty years, I am unable to say, in my own philosophy, that it has wrought any improvement in the moral and social condition of the converts to its claims. Pray, how do you account for this fact?

A.—My friend, that question should be addressed to the Spiritualists, not to me. I will say, however, that this whole subject, long as it has been before the world, is still in a chaotic state. It has never been very fully understood, and even its essential objects and uses have been very much misconceived. I may add that, from its very nature, the real practical fruits are not to be expected until the necessary period of time.

Q.—I will not then press the objection in them. When we look, however, at the religious tendencies of the age, I do not think we find much promise of the "practical fruits" which you here intimate may come of it. I lay it down as a proposition which all history proves, that the only way in which the human race, and that it never has done or can do any body good, but always has done and must do harm. But it is not necessary to the truth of this proposition, such with their mediums and disciples, have generally (though not universally, I grant) assumed an attitude of apparent hostility to all everything peculiar to the religion of the age.

Q.—That is to say, when a spirit comes to you and asserts that there is no God—it is seldom that they assert that, but we will take extreme case—does he teach you that there is no God, or does he teach you that he himself is a God?

A.—So, then, when a spirit comes to you and asserts that there is no God—it is seldom that they assert that, but we will take extreme case—does he teach you that there is no God, or does he teach you that he himself is a God?

OSBORN

First, as Usual!

THREE years in succession, the Osborn was awarded the Great Central Exhibition Medal, 1873, the first prize for Family Sewing Machine, and second prize for Sewing Machine. The new patent shuttle makes the Osborn unrivalled. In this Shuttle there is not the annoyance that is experienced in all other shuttles, and the Osborn is not only a safe and reliable machine, but it is also a beautiful one. The Osborn is self-regulating, which makes it especially adapted for domestic use.

A NEW THING AND A GOOD THING.

THIS invention of the paper collar was of positive benefit to the world, for, as it did not cost more, and most economical article of apparel, it never did answer all the purposes for which it was designed, owing to the soft nature of the material. The problem has been to make a cloth collar as cheap as paper, and which would last longer, and which would be as comfortable as paper.
