Chicago, April 5.—Sentiment became a little more bullish today in the wheat market, after initial declines due to rains in Kansas and Nebraska. Subsequent advances were associated with gossip that new wheat was already being contracted for by export interests. Smallness of the present visible supply tended also to lift values. Opening prices, which ranged from %c decline to a like advance, were followed by moderate setbacks all around, and then by a rise to well above yesterday's finish.

Toronto as a Tourist

Centre is indicated by the volume of her Hotel traffic. The returns of all Hotels show not only a tremendous increase in transient traffic, but increased volume of local patronage.

In other words, Toronto is becoming more cosmopolitan. The advent of the new Union Station, the Harbour Development and the Radial System will serve to enlarge their scope.

This accounts for the increasing investment interest in the King Edward Construction Co. Limited Preterred Shares. These Preferred Shares can be bought on a basis that pays 11% on the investment.
