

any time any such Medical diploma, degree or title cease to be granted in respect of such like degree of knowledge or education as aforesaid, they may remove the same from such list.

All holders of any Medical diploma, degree or title, placed upon such list, shall be entitled to be registered under this Act, with or without examination, and on such terms as the General Medical Council may from time to time determine.

No person who has obtained any such Medical diploma, degree or title before the same is added to such list or the earlier date, if any, (whether before or after the passing of this Act) fixed by the General Medical Council, shall be entitled to be so registered, and the removal of any diploma, degree, or title from such list shall not deprive any person entitled to be registered before such removal of his right to be so registered.

Where the General Medical Council are satisfied of the eminent professional acquirements and character of any person who for more than ten years has been practising Medicine or Surgery in the United Kingdom of Great Britain, or in any British possession or foreign state, they may, by a special order, direct such person to be registered under this Act, and such person may be registered accordingly.

XXIV. At the first regular meeting of the General Council, after the final passing of this Act, and at the first regular meeting of the same after every Triennial Election, there shall be appointed by the members of the General Council a Board of Examiners, whose duty it shall be to examine and test the professional knowledge of all candidates for registration, in accordance with the by-laws, rules, and regulations of the General Council.

XXV. The Board of Examiners appointed under the preceding section, shall be composed as follows:—Two-thirds of the members of the Examining Board shall be elected from the incorporated Medical schools now existing in the Dominion of Canada, and from every other school of Medicine which may be hereafter organized in connection with any University or College, which is empowered by law to grant Medical and Surgical degrees or diplomas, each body being represented as far as possible by an equal number; and one-third shall be chosen from among the members of the College of Physicians and Surgeons of Canada, not employed in teaching or examining in any of the above teaching bodies.

XXVI. The General Council shall have power and authority to appoint examiners to institute and conduct the examination of Medical students in preliminary or general education, and to make by-laws and regulations for determining the admission and enrolment of students; and the examiners shall be persons engaged in general teaching, and officially connected with the University, Colleges, or Seminaries of the Dominion.

The following shall be the subjects for such preliminary examination:—Compulsory: English or French language, according to nationality of student, including grammar and composition; history, geography, arithmetic, including vulgar and decimal fractions; including algebra, simple equations; geometry, first two books of Euclid; Latin, translation and grammar; and one of the following optional subjects: Greek; French or English, according to nationality of student; German; natural philosophy, including mechanics, hydrostatics, and pneumatics.

(2.) Any Graduate in Arts of any University in Her Majesty's Dominions shall not be required to pass the examination in general education.

XXVII. The General Council shall have power and authority to fix
