

Arrives early in March, the bulk usually depart early in November, but some small flocks remain where food is plentiful until severe frost comes, and a few always remain in sheltered gardens all the winter.

GENUS SAXICOLA.

(*) (765) **Wheatear.**
(*Saxicola œnanthe.*)

A specimen of the subspecies, *S. œ. leucorhoæ*, was taken by Mr. Tavernier at Beaumaris, Muskoka, in September, 1896, having wandered out of its range.

GENUS SIALIA.

(766) **Bluebird.**
(*Sialia sialis.*)

A common summer resident, breeding throughout its range in the Province.

Arrives about the middle of March, departs towards the end of October.
