

Contracted Bad Cold. Doctor Said, Serious!

Wanted To Send Him Three
Hundred Miles To The
Winnipeg Hospital.

Bottle and a Half of
**Dr. Wood's Norway
Pine Syrup**
Cured.

Read what Mrs. A. O. Wheeler, Waseca, Minn., has to say about it: "Please let me thank you for the great good that both my husband and my children have received from Dr. Wood's Norway Pine Syrup. One night when my husband came home from work he had contracted a very bad cold. He became so bad that he had to go to bed and send for the doctor. When the doctor came he pronounced it a very serious case, and wanted me to send him to the Winnipeg Hospital. This I would not do, as it is about 600 miles to Winnipeg. I decided to try Dr. Wood's Norway Pine Syrup and got four bottles of it. He only took one and a half bottles before he was all right again and only took a few days' work. I always keep it in the house for the children. Even the baby, seven months old, takes it and seems to like it, and as for myself I do not know what I would do without it. I think that every good housekeeper should keep a bottle on hand, for I know it will save many a doctor bill."

Price 25 cents. Put up in a yellow wrapper and three pine trees the trade mark. Refuse substitutes.

Experts.
At the trial recently of a man charged with robbery at Manchester, England, according to the London Globe, it was announced that the lock of his cell door would have to be picked by a locksmith before he could be brought into the dock. While the artificer pried his tools on the door the prisoner offered expert criticism and encouragement from the inside. He did not think much of the bungling amateur. There was a similar instance not long ago in Lancashire. The officials being unable to open a safe in a prisoner's cell, a barrister, who had just got a prisoner off for burglary, suggested that his client would open it for them. This he did instantly with a piece of string and two hairpins.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good they can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c. per bottle.

Most Traveled Automobile Road.
The most traveled road by bicyclists and automobilists without doubt is the road leading from Haarlem to The Hague, Holland, said L. Van Leenen of Sassenheim, Holland. "Along this road is the famous bulb country, a patch of about twenty-five miles in length and two miles in width. When in bloom these fields cannot be surpassed in beauty, and no one who has seen them at that time will fail to go into raptures over the scene. It is estimated that 25,000 bicyclists pass along this road every day and more than 500 automobiles. The queen herself is to be seen almost daily on this road at that season of the year," Milwaukee Sentinel.

LARGEST ORGAN IN THE BODY.

Is the liver. Small wonder that liver trouble makes you feel so miserable. The symptoms are constipation, dizziness, indigestion, headache, feeling of depression and lack of appetite. There is but one sure cure—Dr. Hamilton's Pills. In every case they are successful. By relying on Dr. Hamilton's Pills you can be sure of strong vitality, nourishing blood, bright, cheery spirits. No longer will you suffer from disordered liver or kidneys. The marvel of this medicine is that it keeps you well, prevents and wards off sickness of every kind. 25c. per box everywhere.

SCOTCH CHURCH CRISIS MAKES MEN SOUND AND STRONG

ALL THE LAND OF THE HEATHER WAS ABSORBED IN IT.

Remarkable Situation Resulting From Decision of House of Lords That They Forfeit of Divided Denominations Take All the Property—Comparative Diagram Showing the Size of the Two Warring Churches.

It is difficult for those unfamiliar with Scottish ecclesiastical affairs to realize how completely the people of Scotland are absorbed in the church crisis. Every other question, fiscal reform not excepted, has been overshadowed and will remain so until Parliament intervenes, as every one is agreed it must, and effects a settlement.

The Established Church of Scotland, though not directly affected by the case, is keenly interested in it, for it is a Presbyterian body like the United Free and the Free Presbyterians. Every other question, fiscal reform not excepted, has been overshadowed and will remain so until Parliament intervenes, as every one is agreed it must, and effects a settlement.

WR UNITED FREE CHURCH CONGREGATIONS.

COMPARATIVE DIAGRAM SHOWING SIZES OF THE TWO CHURCHES.
A Presbyterian country—they are really of national significance. The situation is unprecedented, and the issue of it is so uncertain that even those most immediately affected on either side would be hard put to state the exact position of matters. The House of Lords has produced a state of chaos in the affairs of the largest church in Scotland, the United Free Church, and Scotland is wondering where the world is being evolved out of this disorder. The Free Church was formed in 1843 by the withdrawal of a great body of ministers and members from the Established Church. They did not renounce the idea of State Church, but held that it must be national church, independent of the civil magistrate.

As years went by and a new generation grew up this principle was abandoned and the Free Church regarded itself as a voluntary church and passed resolutions in favor of disestablishment. A remnant, however, always adhered to the old idea. At the same time the Free Church has become permeated by the teachings of the higher critics, and it has revolted against the harsh Calvinism of the Confession of Faith, which declares that only the elect can be saved and that the rest of mankind are ordained to destruction.

In 1892 the Free Church adopted a declaration of faith on this and other points. This gave great offense to the orthodox. Eight years later the Free Church united with another Presbyterian body, the United Presbyterians, who have never believed in a State church.

This was the last straw upon the patience of those Free Churchmen who stick to the old establishment principle, and dislike the higher criticism. They stood out from the union and claimed all the property of the Free Church on the ground that the majority had abandoned their principles. The Scottish courts decided against them, but the House of Lords has decided in their favor. The amazing results of this decision can be realized when one considers the size of the two sections—the United Free and the Free Presbyterians. There were 1,104 congregations in the Free Church at the time of the union. Of these, 1,078 joined the union and twenty-six stood out. There are three divinity schools. All the professors in them joined the union. The church has more than one hundred missions abroad. Every single one of the missionaries went with the union.

The House of Lords has now decided that the whole of this organization—the church buildings, the colleges, the missions and the invested funds, amounting to over \$5,000,000—belongs not to the majority but to the twenty-six congregations who stood out.

There is great unwillingness to question a decision by the House of Lords. However this may be, every one is agreed that the decision cannot be carried out in its entirety. The Free Presbyterians, even if they took possession of everything, would be unable to carry on the church. For the support of some charges alone the United Free have to raise more than \$1,000,000 a year. The Free Presbyterians can only raise \$200,000 or \$250,000. The same applies to missions, which are mainly supported by current subscriptions and which the Free Presbyterians cannot maintain unless they grow enormously in numbers and resources.

However devoted they may be in the cause of their church—and their devotion is recognized throughout the country—they cannot maintain the machinery of a church which has taxed even the resources of its members in the richer parts of Scotland. Lord Davey, one of the judges who gave the decision, has himself suggested that the fairest way would be to divide the property in proportion to the size of the two sections. It is now officially announced that the Government will appoint a commission to consider the present crisis, the terms of the commission to be stated later on.

THE BROOKLYN BRIDGE.

Electricity says that the Brooklyn bridge is now reaching a period in its history when the paramount question of danger overrides all other considerations, and the structure must be rebuilt to insure public confidence and safety. Its rate of deterioration has been \$1,000,000 a year, which the engineering experts have attributed to overstrain and electrolysis. Overstrain perhaps was to have been expected of the only direct connecting link between the two great cities, but electrolysis was a cause of destruction of no so noble a structure, representing a certain knowledge of the laws of physics. The trolley companies, whose experiences should have called for some provision on their part against such disastrous consequences. The journal thinks that better means ought to be taken to prevent similar destruction of the new bridge further up the river.

DR. MACKAY'S SPECIFIC FOR THE TREATMENT OF ALCOHOLISM

Used in Connection with the Province of Quebec Probation System with Unvarying Success.

The City Council of Montreal has endorsed this marvellous discovery. The Finance Committee of Montreal recently voted \$50,000 to defray the expense of placing the medicine in "cure homes" of the city police stations, as prompt application of the treatment to bad cases will prevent the fatality occasionally occurring in the case.

No Sanatorium is required. The treatment can be taken at home. No special diet required. The desire to reform is simply necessary and spirits avoided for a few days.

This medicine is now within the reach of all, the price having been reduced. The wonderful results obtained with the treatment of drunkards coming before the Judges of the Recorder's Courts in Quebec and Montreal warrants the statement that the disease of Drunkenness can be cured—readily and surely—under ordinary circumstances and with the reasonable desire upon the part of an inebriate.

This treatment is simply the medicine of the medical profession—the only secret is as to its administration.

Dr. Mackay's discovery is the result of 25 years of practice as a specialist and expert. He is a member of the College of Physicians and Surgeons of the Province of Quebec.

The Government of Quebec through the Judges ordered over 500 boxes of the medicine for prisoners appearing in the Courts in 1904. Official Reports establish 80 per cent. of cures with these cases.

With public and official endorsement and the record of results published it is unnecessary to waste money experimenting further. All communications private.

SEPARATE WAISTS.

Salutary Lingerie Affairs to Be Worn Under Short Coats.

Under the new short boleros will be worn some very smart specimens of batiste shirt waists ornamented with Valenciennes lace and embroideries or quaint muslin embroideries. Hand-made French blouses, although expensive at first, are well worth the initial cost, for they clean beautifully and can be worn many times for many different occasions.

The transparent lace waist lined with chiffon and worn over an elaborate silk corset cover is another feature of the smart woman's wardrobe. Black waists of net chintilly and crepe de chine are always smart with full veiling skirts.

The black silk coat is here with us again, only the silk is softer, and the trimming often, than not is in the shape of wide bands of shirring. Gray is the leading color for present wear, and the new tints range from almost white to gun metal. There are

GRAY SHIRT WAIST.

also greenish gray, and grays with quite a violet tinge, so that every complexion can be suited.

A blouse of black crepe de chine, with a very deep yoke of ecru lace, has closely gauged sleeves falling over the elbow in wide puffs, with a deep shaped cuff of lace reaching nearly to the elbow. Small bows of narrow green velvet ribbon conceal the front fastening of the blouse and are set closely down each cuff, to reappear in a shorter line at the back of the swathed belt.

The cut shows a gray shirt waist trimmed with scarlet plaid and worn with a scarlet tie and belt.

THE SUMMER WARDROBE.

Brown Will Be Worn a Great Deal Cream Lace and Jet Beads.

Brown will continue to be worn all summer. It will be seen mainly in lustrous silk in the form of shirt waists and tailor-made. Brown in all its tints will also be a smart trimming for pongee dresses.

All shades of blue are very smart. From the baby tones used to trim lace gowns so effectively to the darker tones so useful for tailor-made. Green in bright emerald and in soft olive promises to be very much in vogue for summer silks.

For evening wear cream lace gowns embroidered in silver are very beautiful, and black chintilly over white is always smart as well as serviceable. Dead white lace is equally smart, but it is very trying to most women.

Heavy embroideries are quite the most up to date trimmings. Pastel cloth gowns are trimmed with combinations of pale tints. Silver and gold threads are often introduced into the more elaborate ornamentations.

Jet robes most fancifully made up are both pretty and serviceable. They

WEAVING DRINK.

have large sleeves of knitted chiffon cut so as to reveal the bare arm at its best.

A smart coat seen recently was made shorter at the back than in the front, and it was so slashed that it showed the dainty blouse under it. It had no collar, and the square cut fronts hung loose.

Liberty satin and liberty toulards make pretty little street dresses, with shallow yokes or pointed collars of embroidery, the same embroidery appearing also on the sleeves.

The picture shows a white veiling gown made over white tulle and trimmed with cream lace. The cream lace is draped with similar lace.

AN IMPROVEMENT ON NATURE.

Nature gives us fruit to keep us healthy. But fruit can't bring back health after we lose it. It takes something more effective than fresh fruit to cure Stomach, Liver and Kidney Diseases.

Fruit-a-tives

or Fruit Liver Tablets

are fruit juices in tablet form. We improve on nature by our secret process. If we so change the medicinal action of the fruit, that "Fruit-a-tives" are rendered effective enough to cure Constipation, Biliousness, Torpid Liver, Indigestion and Sick Kidneys.

If you want to be rid of these troubles, ask your druggist for a box of "Fruit-a-tives." They never fail, 50c. a box.

WAX MATCHES.

Wax matches, so called, are made by drawing strands of fine cotton thread, twenty or thirty at a time, through melted tallow, with a small admixture of paraffin. The wax hardens quickly upon the threads, and the long tapers thus produced are smoothed and rounded by pulling them through iron plates, perforated with holes of the desired size. Finally the tapers are cut into match lengths and dried.

LISTEN FOR THE BRONCHIAL "WHEEZE."

It means that disease will soon attack the lungs. Wheezing is distressing to the sufferer and annoying to his friends. Nothing half so certain in bronchitis and throat trouble as "Catharrhose." It gives instant relief and cures even the worst cases. Bronchitis fairly flies under the magical influence of Catharrhose, which cures so thoroughly the disease never returns. Other remedies may relieve, but "Catharrhose" cures bronchitis, catarrh, and throat trouble for all time to come. Sold everywhere.

The Betteasing Sin of the Gentleman.

All people above the condition of laborers are ruined by excess of stimulus and nourishment, clergy included. I never yet saw any gentleman who ate and drank as little as was reasonable. Looking back on my past life, I find that all my miseries of body and mind have proceeded from indigestion.

A man talks about owning his business. But, as a matter of fact, his business owns him. His whole life is regulated by the demands of the business. The time at which he rises, his breakfast hour, the time given to meals, are all determined by business obligations. He rushes through lunch because he must spare the time from business" to eat leisurely. He won't take a rest because he is needed at the store or office. He is in fact an absolute slave to business. The results which follow this slavery are to be seen on every hand. Men dyspeptic, irritable, nervous, with drawn faces, and hollow eyes, sit at the desk or stand behind the counter until they collapse in a fit of sickness, or are taken away by heart failure. Those who cannot escape the exactions of business will find a friend in Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, increases the action of the blood-making glands, increasing the vitality and physical health, makes men strong and prevents those business breakdowns which so often terminate fatally.
