MORISON'S UNIVERSAL MEDICINE.

NOTICE.

THE subscribers, general Agents for Morrison's Pills, have appointed WILLIAM WHITFAKER, Sub-Agent for the Upper Town, No. 27, St. John Street.

LEGG & Co.

That the public may be able to form some idea of Morrison's Pills by their great consumption, the following calculation was made by Mr. WING, Clerk in the Stamp Office, Somerset House, in a period of six years, (part only of the time that Morrison's Pills have been before the public,) the number of stamps delivered for that medicine amounted to three million, nine hundred, and one thousand.

The object in placing the foregoing before the public is to deduce therefrom the following powerful argument in favour of Mr. Morrison's system, and to which the public attention is directed, namely, that it was only by trying an innocuous purgative medicine to such an extent that the truth of the Hygeian system could possibly have been established. It is clear that all the medical men in England, or the world, put together, have not tried a system of vegetable purgation to the extent and in manner prescribed by the Hygeiæ. How, therefore, can they (much less individually) know any thing about the extent of its properties

THOMAS PAUL,

PROSPECTUS
QUEBEC & MEGANTIC LAND COMPANY.
CAPITAL £30,000.
In Shares of Fifty Pounds each.

PAYABLE IN TEN YEARLY INSTALLMENTS OF FROM £4 TO £7 10s. EACH.

DURING the administration of Lord Aylmer, who at all times was most anxious for the improvement of the Eastern Townships, a purchase was made of an unsurveyed Tract round Lake St. Francis, in the County of Megantic, on similar terms as those granted by the Home Government to the British American Land Company.

The purchase embraces a tract of 220,000 acres of land of good quality, lying contiguous to the unsurveyed flock of the British North American Land Company, within 60 miles of Quebec.

The proprietors of the Company intended throwing open the Stock on receiving the confirmation of the Secretary of State for the Colonial Department to the sale thus made by Lord Aylmer, taking it for granted the same facilities would be given to a Company, consisting of the settlement either natives or of residents in Canada, as had been granted to the British American Land Company, the greater part of the Stockholders of which reside in England. No such confirmation has as yet been given, the subject being referred to the late Commission, the Secretary of which in his last letter stated a report had been sent to England, but that that period, December, 1838, nothing has been done.

It is proposed to divide the Stock into 600 shares of £50 each, payable in ten annual instalments, varying from £4 to £7 10s. each.

It will be well to say a few words in favour of the project and to state at once that there will be no exclusion whatever of any class of Her Majesty's subjects in the settlement of the tract, industry and sobriety being the requisites of the tract, whom the Company will be anxious to encourage.

Megantic has been so long neglected, and unless some stimulus is given, by the prospect of extensive improvement, it is to be feared the well settled country on the Chaudière and the thriving Townships of Leeds, Verdenes, H. Blais, &c. will be much retarded.

To every resident in Quebec the prospect of setting 220,000 Acres within a day's journey of the city cannot fall to be interesting, for not only will all the necessaries of life be abundant but all property will be enhanced in value, for sooner or later this must be the outlet of the Townships.

The Company will be carried on most economically, as only two Agents is and one Surveyor will be required, one of the former to reside at Lake St. Francis or where the most eligible site in the tract would be chosen for a town, and one in Quebec. A board of three unpaid Commissioners would be chosen by the Stockholders as under whom the Agents would act.

The British American Land Company will doubtless act in band with the present Company, if formed, for every additional settler—grown in, near their unsurveyed tract, will enhance its value, and the proprietors of the Quebec and Megantic Land Company feel assured that if it goes into operation it will add new life to their operations, as the Stockholders in England will think more favorably of the investment they have made in this Province when they see that residents are desirous of making similar ones precisely in the same tract of country.

Quebec, 23rd July, 1838.
