STEEL BAR CONSUMERS . WANT TO INCREASE TONNAGE

dustry Will Durive Greatest Senefit From War in Europe—Prices Have Seen Raised Considerably of Late.

Pittsburgh, August 18.—Steel manufacturers are Cheese was bringing forward a moderately heavy yet undecided which avenues of the steel industry will Cheese was bringing toward a imperator, the state of the demand at yesternays revue of 1.5% cents per pound
wastern white or colored and 1.2% cents per pound
While there has been a falling off in business in
for townships white or colored. Butter was steady at
many lines, notably structural work, which is finding mand coming forward for local jobbing and wholesale working away at close to 70 per cent. of capacity and Prices were steady at 23% to 29 cents per report no cancellations. Rather there has been almost a concerted movement on the part of some conocally, but as soon as the demand commences to come tonnages contracted for around 1.10c and 1.15c. The users of bars, to obtain in the locally, but as soon as the defining continuous will be present quotation is 1.0c, Pittsburgh base, and the rapidly eradicated. It is the opinion of dealers that consumers who see in the war opportunities for exthey have already found their own levels to a very tain the extra supplies without paying more. But bar makers are not willing.

Hardly Called Contracts.

The attitude of bar users is understandable. Steel ntracts are little more than options. They name, in effect, the maximum tonnage that the buyers can take the prices named. So, if the war results in timulus to the business of the bar users and the choice hold- find it advisable to take larger tonnages each mont will be in position to do it to their advantage ove their competitors who may have 1.20c or higher con

If on the other hand, the increase in business doe not justify the increase of bar takings, the quotas can be cancelled and the bar user is no worse off than be

Semi-finished steel has firmed up and is now 500 to \$1 a ton above the price a week ago. Bars, plates and shapes are up \$1 to \$2 a ton. Black sheets are 10 points or \$2 a ton higher. The advance in spelter of course has effected the greater advance on galvarized sheets. The plate is higher as a result of the increase of more than 100 per cent. In the price of the increase of more than 100 per cent. In the price of the increase of more than 100 per cent. In the price of the increase of more than 100 per cent. In the price of the increase of more than 100 per cent. In the price of the increase of more than 100 per cent. In the price of the increase of more than 100 per cent. In the price of the increase of more than 100 per cent. In the price of the increase of more than 100 per cent.

The increases in prices are not ascribed entirely to large part of it.

It is said iron and steel exports have been entirely in the same time, and held it. The passing of the stopped by the war, but such a statement is only half stopped by the war, but such a statement true, for the simple reason that approximately one-claimed caused the advances on grain prices. Tradhalf our tonnage of fron and steel exports go to Canada, and nearly one-third of our exports of iron and
steel manufactures. Possibly it is for this reason
that iron and steel production has not been sensibly
reduced since the war opened. The Canadian mar-According to a Topeka dispatch, Kansus is sensing in that hour and seed products. BUSINESS SHOWN

War has Built Wall Around United States More Thoroughly Than Tariff Could

ORDERS FOR WORSTED

American Woollen Company Now Has Things Pretty

Boston, Mass., Aug. -S.-Since the European war, Claims of heavy export buying induced a brisk de-mand for oats and the market ruled strong throughout tition, the American Woollen Company now has the domestic markets to itself. The war has built up a perfect Chinese wall around the United States more efficient in all probability than any of the so-called high tariffs. It will not only be impossible for months to import goods from abroad, but the backoone of competition in France, England, and Beigium

has been crippled for a long time to come. The orders which have been coming the American collen's way of late are of course mainly for worsted goods and fancy woollens, but there has been a goodly amount of buying of yarns. Many mills and importers have figured carefully on buying foreign yarns and manufacturing them into cloth and their calculations have been badly thrown astray by the European war. Some have been unable to make un
