The Verdict of the R.O.P. Test

The value of a dairy cow is not what she will produce in a week, two weeks, or even thirty days. It is in what she will produce under average farm conditions in a year's work. The dairyman who is planning to establish a herd must not forget this fact. The average yearly production of all AYRSHIRES QUALIFIED IN R. O. P. have been made under such conditions, and 224 mature cows have given an average of 10,254 lbs. milk, testing nearly 4% fat.

The London Sale of Shorthorns.

Wednesday, Nov. 8th, the date advertised by the Western Ontario Consignment Sale Company for their big public sale, promises to be a gala day for the Shorthorn breed at London. The event has, in Shorthorn circles, already become one of the fixtures of the year, and the quality and breeding of this year's offering should establish some new, high averages.

In all there are somewhere in the neighborhood of eighty head catalogued, and these have been carefully selected from a number of the leading herds throughout Western Ontario, the number of bulls and females being about equal. With the exception of one three-year-old, all the bulls offered will be either 1915 or 1916 calves, and as there are only a very few of this season's calves, nearly everything offered in bulls will be just the desirable breeding age. The females, too, are all young. The five-year-old cow "Cora," by Royal Duke, being the only thing in the sale over three years of age. For the most part the females are made up of 1913 and 1914 heifers, nearly all of which are bred, and as everything in the sale is guaranteed a breeder, parties in need of something choice in young females should be sure and be on hand to see this lot.

In forwarding the catalogues of sale upon request Mr. Smith is more than anxious that careful attention will be paid to the breeding of every animal contributed. It will be seen that with very few exceptions one or more of the more noted females appear in every pedigree; there are Lancasters, Village Girls, Wimples, Mysies, Rosemarys, Butterflies, Mayflowers, Minas, etc., families of straight Scotch breeding, and others bred on dual-purpose lines are all included in this year's offering.

A line or two here mentioning one or two sires whose get are being offered might also be of interest. Several young things from the Secretary's consignment will be sired by the promising young sire Blarneystone, a Butterfly bull by the noted champion winner, Mutineer. Clansman, a good breeding sire by Lancaster Royal, has a number in the T. W. Douglas consignment. Newton Friar, a Marr Flora, sired by Violet's Victory, has some nice things in the Waldie lot; Lucky Star, by Red Star (imp.), is the sire of nearly all of F. McDonaldson's entries; Buckingham Bridegroom, a Golden Drop sire, figures as the sire of a number from E. Brien & Sons' herd; Prince Augusta, by Royal Edward, a straight Augusta bred bull, has sired some nice things for H. K. Fairbairn, and there are a score of others equally well bred whose get will be more favorably known after they are exhibited on sale day, Nov. 8th. For all information regarding catalogues, terms, etc., write Harry Smith, Hay, Ont., Sec. of sale, and mention The Farmer's Advocate.
