

Experience Saves Money in this Maxwell

THE 300,000 Maxwells built to date saves you many a worth while dollar in the new Post-War Maxwell. Those 300,000 saved in many ways.

More miles per gallon
More miles on tires

1. They taught "short cuts" in manufacturing.
2. They eliminated all experimental work—you don't have to pay for a single engineering mistake.
3. They developed quantity production which has reduced "overhead."
4. They enabled quantity purchases; and better materials are bought at lower costs.
5. They taught how to build an almost trouble-proof car; you seldom take a Post-War Maxwell to a repair shop.

6. They taught how to get the most mileage out of a gallon of gasoline, a pint of oil and a set of tires.
7. They taught how to build a car that the less skilled driver would find simple to operate and take care of.

8. They taught that it was better to build more and take less profit per car rather than build less and take more profit per car.

9. They taught how to put more and more value in the car without increasing the cost.

This Post-War Maxwell is next year's car. It contains features developed during the war, many of which will find their way into other cars in the summer of 1920.

MAXWELL MOTOR CO., OF CANADA, LIMITED, WINDSOR, ONT.

Easy
to
Drive.
Holds
Firmly
in
Place.

If you've been accustomed to the back-breaking job of digging post-holes, handling heavy wood posts, filling in and tamping, you'll be delighted with the ease, speed and economy with which

PRESTON STEEL POSTS

are erected. The sharp bevelled point goes in with a few hammer-blows, and the anchor-plate binds the post so firmly that no replacements are required. Haul enough at one load to fence 40 acre field—drive them in a day—have a good-looking, permanent fence. Write for Folder.

If It's As Good As the Goodison It Is a Goodison

HONEST TO GOODNESS

Goodison Threshers have every advantage of modern design and even many exclusive features possessed by no other separator. But above all others, the sturdy, honesty of the Goodison construction, Goodison performance and Goodison service are the outstanding features.

"If it's as good as a Goodison it is a Goodison"

Our machines back us up in either statement to the limit. Own your own Canadian made Goodison. Talk to Goodison owners or ask for our folder, "Goodison Features and Feathers" and convince yourself.

THE JOHN GOODISON THRESHER COMPANY LTD.
Sarnia - Ontario - Canada

1. There is no time to waste these days. If you keep hogs, you can save hours of time by putting in BT steel Hog Pens. See the drawing above. The swinging front enables you to feed the hogs in half the time.

2. This swinging panel does away altogether with the job of straddling the pen, kicking the old sow in the ribs and trying to keep a dozen little pigs away from the trough while you put in the feed.

3. In addition to this, the hogs cannot climb out of BT Steel Pens as they can out of wood pens. Steel pens are more easily cleaned and do not need whitewashing. Fill in the coupon and we will gladly send you complete particulars.

Send this coupon for our 352-page Barn Book. Tells how to plan, build, frame and ventilate the Hog Barn. How to save time, labor and feed in caring for the hogs. It will save you hundreds of dollars and is free.
