

# PREMIUMS! SECURE NEW SUBSCRIBERS TO THE FARMER'S ADVOCATE PREMIUMS!

THE BELOW DESCRIBED GRAINS ARE OFFERED AS SUBSCRIPTION PRIZES:

## BARLEY.

**SELECTED CANADIAN THORPE (Two-Rowed).**—This barley was first generally introduced two years ago, and has proved beyond doubt the best two-rowed barley in cultivation in Canada to-day. It closely resembles the English Thorpe in some respects, but is a much superior variety and very much better suited to Canadian soil and climate. Is very hardy and productive; grows an abundance of straw, which stands as well and stiffly as the best sorts of wheat. Stools droop, and will outyield any six-rowed sort. It is a very upright grower, and the heads never droop. We have never seen it lodged. Five pecks to one and a-half bushels per acre of seed is quite sufficient. Its color is as bright and nice as the best Six-Rowed when carefully saved, and will outweigh any of the English sorts that we have seen. It will do well wherever the Six-Rowed succeeds; has done remarkably well in Manitoba and the N. W. T. Every farmer should try this variety. Our stock has been grown on the shores of Lake Ontario, the best barley country in America, and is absolutely pure. The extra yield of this barley over any other makes its purchase a good investment, if only grown for feed.

We will express one peck of this variety to any old subscriber who sends us one new name accompanied by \$1

## OATS.

**THE WHITE MONARCH OAT.**—This magnificent white oat was grown for us by one of the best farmers of Ontario, and has given the greatest satisfaction. Our stock is grown from imported seed sent out by one of the best English seedsmen, and is a cross-fertilized variety produced by this gentleman. It has given the very best results in England, where it has been thoroughly tried. Its English introducer, in writing of it, says:—"It surpasses all others for earliness, while its productiveness may be realized from the fact that it yielded from eighty to one hundred bushels to the acre. The straw is frequently six feet to six feet four inches in height; of a splendid quality; large, close panicles, completely clothed with grain of the finest quality and very hardy. It has a wonderfully thin skin, and is consequently much appreciated and valued by millers." A leading agriculturist, who has tested it for two years, says:—"I find this oat is much thinner in the skin than any of the sorts we have been growing. From its appearance and character, I judge it will be a valuable addition to the varieties we have in this country." We have carefully tested it for two years, and like it well. With us it has grown a fair amount of straw and yielded very well. The grains are thin in the skin, and the fleshy parts heavy. With us it has done MUCH BETTER than the Gothland, and we prefer it to the Golden Giant, though the last named has done well with us.

We will send one peck of this oat to any old subscriber who sends us one new name accompanied by \$1.

**BLACK TARTAR OATS.** Imported from one of the most reliable European firms. ONE PECK BY EXPRESS FOR ONE NEW NAME ACCOMPANIED BY \$1.

N. B.—We do not prepay the charges on any grain or goods sent by us as subscription prizes. If our friends desire grain prepaid, we will do so by reducing the amount sent from one peck to five pounds. This amount can be sent by post.

We also call your attention to the page of premiums on page 19, January 1st, and page 39, January 15th issues. Everyone is delighted with them.
