

SUPERIOR MERIT.

Remarkable Curative Properties of a Remedy for Indigestion and Stomach Weakness.

Stuart's Dyspepsia Tablets, a preparation for the cure of dyspepsia and the various forms of indigestion and stomach trouble, owes its great success as a cure for these troubles to the fact that it is prepared for disease and weakness of the stomach and digestive organs only, and is not recommended or advised for any other disease.

It is not a cure-all, but for any stomach trouble it is undoubtedly the safest, most sensible remedy that can be advised with the prospect of a permanent cure. It is prepared in tablet form, pleasant to taste, composed of vegetable and fruit essences, pure pepsin and Golden Seal, every one of which act effectively in digesting the food eaten, thereby resting and invigorating the weak stomach; rest is nature's cure for any disease, but you cannot rest the stomach unless you put into it something that will do its work or assist in the digestion of food.

That is exactly what Stuart's Dyspepsia Tablets do. One grain of the digestive principle contained in them will digest 3,000 grains of meat, eggs or similar wholesome foods. They will digest the food whether the stomach is in working order or not, thereby nourishing the body and resting the stomach at the same time, and rest and nourishment is nature's cure for any weakness.

In persons run down in flesh and appetite these tablets build up the strength and increase flesh, because they digest flesh-forming food, which the weak stomach cannot do. They increase the flow of gastric juice, and prevent fermentation, acidity and sour watery risings.

Stuart's Dyspepsia Tablets can be found at all drug stores at fifty cents per package. om-

PLEASE MENTION FARMER'S ADVOCATE.

GOSSIP.

The council of the Highland and Agricultural Society instructs its judges not to give reasons for their decisions. Strange that such antiquated ideas should be adhered to after the visit to that country of Canada's Live-stock Commissioner.

The election of Mr. Wm Linton, of Aurora, Ont., to the presidency of the Dominion Shorthorn Association is a fitting tribute to the traditions of his family name. His honored father ranked high among British breeders of the cosmopolitan red, white and roans as a championship winner at the Royal and other leading shows in the home country of the breed. The inborn and inbred love of the son for a good Shorthorn has kept him constantly in touch with the profession, and hence it is not surprising that we find him still to the fore, having in the last year made an importation of personally selected cattle for himself and for his friend, Sir William Mulock, portraits of some of which will probably be produced in the "Advocate" in the near future. We tender him congratulations on his election to this important position.

THE CARGILL SHORTHORNS.

The 1903 tabulated catalogue, just issued, of the noted Shorthorn herd of Messrs. H. Cargill & Son, Cargill, Ont., is the most complete production in the way of a catalogue of pedigrees of Shorthorn cattle ever published in Canada so far as we know. The ordinary form of pedigree appearing in catalogues and handbooks shows less than one-half of the real pedigree, tracing back, as they do, only on the side of the dam, with the mere mention of the name and number of the sires, which are pre-eminently the most important factors in the pedigree and in the building up of a family of strong character, individually and collectively. The tabulated pedigree reveals at a glance the lineage of both sire and dam, affording at once a clear knowledge of the blood elements entering into the composition and breeding of the animals, together with the names of the breeders of the sires.

The Cargill herd, as indicated by this catalogue, comprises, at present, 126 head, 116 females and 10 bulls over one year old, besides the calves under a year, which makes this, without doubt, the largest herd of imported Scotch-bred Shorthorns on the continent of America. All the principal and most popular Scotch families are represented in the list of females, while among the sires in service is the grand Golden Drop bull, Imp. Golden Drop Victor =32065= (76780), bred by Mr. Duthie, whose sire, Nonpareil Victor, was of the Cruickshank Nonpareil tribe on his dam's side, while his sire, Count Victor, was of the Sittytton Victoria family. Golden Drop Victor is a bull of vigorous character, with a strong back, smooth conformation and fine quality, and he is proving an exceptionally prepotent sire, stamping his character on his offspring with unusual certainty. The Missie bull, Lord Mistletoe, also bred by Mr. Duthie, and sired by Lovat Champion, bred by Lord Lovat, is another of the stock bulls, now in his two-year-old form. Among the yearling bulls is Merchantman, another Missie, also by Lovat Champion, and Prince Royal, bred by Mr. Marr, from his favorite Princess Royal family, and sired by Lavender Victor of the Cruickshank Lavender tribe. Also, Lavender Star, of the last named family, a son of Golden Star, a Missie bull of Mr. Marr's breeding. With such a string of sires and such a grand galaxy of females as are listed in this catalogue, the character of the young stock in the Cargill herd is assured. Those who know the Messrs. Cargill and have had dealings with them will bear testimony to their integrity and fairness and to the fact that they ask no exorbitant prices, but are satisfied with small profits and quick returns, and they certainly have done good work for the country in importing so many good cattle.
