## THE OLD MILL

OF ROMANCE

Is all very nice in fiction, but as a factor in making flour it is simply "not in it" with our modern mills, fitted throughout with the most improved machinery and appliances. We now turn out a higher grade of flour than was ever before produced, and our total capacity, recently increased, now exceeds the extraordinary figure of Ten Thousand Barrels Daily.

### OGILVIE'S

HUNGARIAN and  
GLENORA PATENT  
FLOUR.

SOLD ON MERIT.

PORTABLE GRAIN ELEVATORS, for relieving grain blockades, loading cars at a wharf and obviating long hauls to the mill, also for filling any temporary warehouse, is a thing a large number of farmers and track buyers have been waiting for a long time, and we learn that the Western Implement Mfg. Co. are now filling this want. This machine can be easily moved, and it

should pay two or three farmers to club together and get one.

This firm deserves great credit for the way they are going ahead and placing before the people so many labor and time saving devices to suit the peculiar requirements of the Western farmer. Mr. Jno. Harmer, their manager, states that their capacity is taxed to its limit, which speaks well for Western manufacturing.

### GOSSIP.

The dairy breeds made a great showing at the Winnipeg Industrial Exhibition this year, the Holsteins being out nearly 100 strong, and the Jerseys well up to three-fourths of that number, while the Ayrshires, though not so numerous, owing to the absence of the Greenway herd, made a very creditable display. There were many high-class animals in each class, and the average quality was high.

Jas. Tough, of Edmonton, while at the Winnipeg Industrial, purchased a number of first-class Herefords, which will make a valuable addition to his already strong herd, Gladstone, the first-prize year-old Hereford bull at Winnipeg, and owned at that time by Benallack & Son, of the same city, being one of the number. He is a thick, meaty fellow, smooth and straight, one of the select specimens of his breed. Mr. Tough purchased, in addition, five females, all from B. & W. George, of the Brookline Farm, Aurora, Ill. They are a uniform lot, of choice quality and first-class breeding. Delicata 2nd (imp.), sire Badge Protector, one of England's best sires to-day, and a son of the famous bull for which Mr. Frank Nave, of Indiana, paid \$6,000.00 two years ago, is one of the bunch. Grace, sire Curly, he by Grimley F., bred by G. N. Sprague, and out of Brenda 5th, is a full-grown cow of splendid size and true Hereford character. Starlight and Miss Atchinson, two other cows of choice breeding, fine size and good quality, along with Thanksgiving, a yearling heifer of excellent parts, complete the consignment.

### CLYDESDALES AND SHORTHORNS.

We would call particular attention to the advertisement of Mr. Wm. Iverach, Beulah P. O., Man., in the present issue. Mr. Iverach keeps both Clydesdale horses and Shorthorn cattle. He has at present for sale the pure-bred stallion Admiral Sampson (2694). This is a good strong type of Clyde, pure black in color, strong limbed and with splendid bone and action. Although he has never followed the fairs, his stock has always taken first place against strong competition; in fact, Admiral Sampson is well-fitted to become the head of any stud. "The largest quantity of the finest quality" has been the motto of Mr. Iverach in the management of his Shorthorn herd, and to-day the stock exemplifies the adherence to this rule. Duke of York—39897—, a grandson of Royal Don, is his herd bull, and judging from the display of young stock he is proving himself a bull of the right good sort. The cows are all of a large, roomy stamp, strong in constitution, and any person desiring a combination of both size and quality would do well to visit the herd of Mr. Iverach.

### SHORTHORNS AT THE HIGHLAND SHOW.

At the Highland Society's Show, held at Dumfries, July 21 to 24, the first prize for Shorthorn bull, three years or over, and the championship of the breed, went to Sir John Gilmour for Royal Archer, a son of Brave Archer. The second place in the class was given Mr. Deane Willis' white bull, C. I. V., also by Brave Archer, and third to Mr. Harrison's Silver Bell, by Silver Plate. In two-year-old bulls, the first winner was Mr. J. A. Gordon's Prairie King, who was reserve for the male championship. The second was Mr. J. Watt's Merry Dandy, bred by Gordon of Newton, and sired by Merry Monarch. In a good class of nine yearling bulls, the Marr-bred Proud Favourite, a red son of Bap-ton Favourite, shown by Mr. D. Stewart, Crief, was given first place. Mr. McWilliam, of Stoneyton, was second with Stoneyton Star, a son of Royal Star (71502). Mr. Harrison was third with Cumberland Pride, by Stoneyton Pride. The first-prize cow was the roan, Flora 6th, by Easter Gift, shown by Mr. Harrison; Mr. Willis' White Heather being second, and Mr. C. W. Kellack's Sarah third. In two-year-old heifers, Mr. R. Taylor's Pitliviie Undine was first; Mr. Willis' Malmalson second, and Mr. Graham's Bridd of Lincoln third. Yearling heifers were led by Mr. R. Taylor's Duchess of Pitliviie 2nd, followed by Mr. McWilliam's Lady Rose and Golden Pride.

### The Veterinary Association of Manitoba.

Under the authority of Secs. 18, 19, 20, 22 and 26 of the Veterinary Association Act, 1890 (53 Vic., Chap. 60), the following persons only are entitled to practice as Veterinary Surgeons in the Province of Manitoba, or to collect fees for the services rendered as such:
