

GOSSIP.

Selling the kernes and keeping the husks, is no way to fatten the home-fed pigs.

"My sakes! How well your husband is trained. How did you ever do it?" "I didn't. He was a widower when I got him. It saves a lot of trouble."

Host—My wife is worrying about there being thirteen at the table to-night. Guest—Superstitious, eh? Host—No. She has only a dozen silver-handled knives and forks.

Judge Robert Hodges, of Georgia, tells a pitiful story of a young friend of his who essayed to win a place as a school teacher in a country town not far from Macon. Judge Hodges, who has considerable political pull, backed the young fellow, but told him that he would have to stand an examination before he could hope for an appointment. The aspirant bade his patron good-bye in high feather, and left to take the examination. It was several days before Judge Hodges saw him again. When he did he noticed that the young man did not seem very jubilant.

"What's the matter, Sam?" the Judge questioned. "Couldn't you stand the examination?"

"No, suh," answered the disappointed one. "The fool examiners asked me about things that happened before I was born."—Boston Advertiser.

FEEDING OLD LONDON.

The Sunday Strand has an article by Edouard Charles dealing with the feeding of the world's greatest city. We are told that the food bill for London for a twelvemonth does not fall short of £125,000,000. London consumes large quantities of bread. It takes 4,000,000 sacks of flour and 5,000,000 sacks of unground wheat to appease London's bread-eating capacity, and of this vast quantity Canada supplies one-sixth yearly. This amount of bread is not, of course, all eaten dry, and the quantity of butter consumed is given at 94,000,000 pounds, besides a very large quantity of margarine. Home dairies supply us with but a paltry 10 per cent. of our butter. Into the pockets of the dairymen of Normandy and Brittany, Denmark, the United States, the Argentine, Canada and Australia goes close upon £250,000 per annum for butter alone. Of milk London consumes 68,000,000 gallons per annum, and a quarter of a million of cows are responsible for this contribution to the table. It is impossible to get absolutely correct figures as to the number of eggs eaten yearly, but approximately they number about 500,000,000. What number the British hens contribute to the quantity it is impossible to say. Of cheese London gets rid of a large quantity—each Londoner's share being 12 pounds, and just half of it comes from abroad. The Londoners rank high as meat-eaters—the metropolis every year receiving about 450,000 tons of meat, alive and dead. A fair quantity of fish also disappears, being put down at no less than 574,000 tons.

REVISED VERSION OF THE OXFORD STUDENT.

(Written for the Farmer's Advocate) There was a guileless college youth, That mirrored modesty and truth; And sometimes at his musty room His sister called to chase the gloom.

One afternoon when she was there Arranging things, with kindly care, As often she had done before, There came a knock upon the door.

Our student, sensitive to fear Of thoughtless comrades' laughing jeers, Had only time to make deposit Of his dear sister in the closet; Then haste the door to open wide, His guest unbidden stepped inside.

He was a cheery-faced old man, And with apologies began For calling, and then let him know That more than fifty years ago, When he was in his youthful bloom, He'd occupied that very room; So thought he'd take a chance, he said, To see the changes time had made.

"The same old window, same old view, Ha! ha! the same old pictures, too!" And then he tapped them with his cane And laughed his merry laugh again.

"The same old sofa, I declare; Dear me, it must be worse for wear. The same old shelves," and then he came And spied the closed door. "The same—"

"Oh, my!" A woman's dress peeped through, Quick as he could he closed it to. He shook his head, "Ah, ah! the same Old game, young man, the same old game."

"Would you my reputation slur?" The youth gasped, "That's my sister, Sir."

"Then," said the old man with a sigh, "The same old lie, the same old lie." A. McFARLANE.

Riverside Holsteins

80 head to select from. 8 young bulls from 6 to 10 months old, whose dams have official weekly records of from 17 to 21 lbs. butter; sired by Imp. Victor de Kol, Pietertje, C. A. R. of M. No. 3, and Johannes Rue 4th Ltd.

We Will Buy

A 50c. Bottle of Ligozone and Give it to You to Try

We want you to know about Ligozone, and the product itself can tell you more than we. So we ask you to let us buy you a bottle—a full-size bottle—to try. Let it prove that it does what medicine cannot do. See what a tonic it is. Learn that it does kill germs. Then you will use it always, as we do, and as millions of others do. This offer itself should convince you that Ligozone does as we claim. We would certainly not buy a bottle and give it to you if there was any doubt of results. You want those results; you want to be well and to keep well. And you can't do that—nobody can—without Ligozone.

We Paid \$100,000

For the American rights to Ligozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Ligozone destroys the cause of any germ disease. Ligozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are ex-

hilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetal matter. There lies the great value of Ligozone. It is the only way known to kill germs in the body without killing the tissues too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

- Asthma, Abscess—Anemia, Bronchitis, Blood Poison, Bright's Disease, Bowel Troubles, Coughs—Colds, Consumption, Colic—Croup, Constipation, Catarrh—Cancer, Dysentery—Diarrhea, Dandruff—Dropsy, Hay Fever—Influenza, Kidney Disease, La Grippe, Leucorrhoea, Liver Troubles, Malaria—Neuralgia, Many Heart Troubles, Piles—Pneumonia, Pleurisy—Quinsy, Rheumatism, Scrofula—Syphilis, Skin Diseases, Stomach Troubles.

- Dyspepsia, Eczema—Erysipelas, Fevers—Gall Stones, Goitre—Gout, Gonorrhoea—Gleet, Throat Troubles, Tuberculosis, Tumors—Ulcers, Varicocle, Women's Diseases.

All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood.

In nervous debility Ligozone acts as a vitalizer, accomplishing what no drugs can do.

50c. Bottle Free.

If you need Ligozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Ligozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever. Ligozone costs 50c. and \$1.

OUT OUT THIS COUPON.

For this offer may not appear again. Fill out the blanks and mail it to The Ligozone Company, 458-464 Wabash Ave., Chicago.

My disease is..... I have never tried Ligozone, but if you will supply me a 50c. bottle free I will take it. 306 Give full address—write plainly.

Any physician or hospital not yet using Ligozone will be gladly supplied for a test.
