Galt "Classik" Ceilings

THIS IS THE SHEET METAL AGE.

Unlike wooden ceilings, Galt "Classik" Metal Ceilings never warp or burn through, neither do they crack or fall down as do the plaster kind.

And, unlike ordinary metal ceilings, Galt "Classik" Ceilings are constructed so that the ceilings, walls and trimmings completely harmonize—form together one harmoniously artistic whole.

The designs selected for Galt "Classik" Ceilings are from the Louis XIV. period—more elegant, beautiful and elaborate than anything hitherto attempted in metal ceilings.

Quickly and easily applied, too. All joints fit perfectly and are invisible. When up, they're up to stay. Never drop off, crack or rust. Not affected by settling of building. No wear-out to them. Superior in every way to every other kind of ceiling.

Designs suitable for any size or style of room—and you'll be surprised how little Galt "Classik" Ceilings cost! Handsomely illustrated catalogue free on request.

NO COMPOSITION ROOFING equals Carey's in scientific construction; none equals Carey's in durability; none has earned such convincing testimonials as to satisfactory service.

Let us PROVE these assertions by sending you evidence of Carey Durability in the form of voluntary tributes given by actual users after severe tests covering a period of from 10 to 20 years. Don't waste your time and money on "cheap," shoddy roofing that may look well—until the weather hits it. Such roofings are made merely to sell to the unsuspecting.

CAREY'S Flexible Cement ROOFING

is made to render long and satisfactory service—to last as long as the building stands and with the least bit of common-sense care it will do it. Its first cost is little more than that of "cheap" inferior roofing with which the market is flooded. Because of its superiority, Carey's is the least expensive roofing.

Carey's Roofing is composed of best Woolen Felt, a heavy body of Carey Process Asphalt, East India Burlap and Carey Fire-Resisting Cement Compound—all compressed at the factory into indissoluble roofing sheets of permanent flexibility. The Carey lap covers and protects nail heads.
