FATHER FRASER'S CHINA MISSION FUND & CAN

Dear Friends,—I came to Canada to seek vocations for the Chiness Missions which are greatly in need of priests. In my parish alone there are three cities and a thousand vil lages to be evangelized and only two priests. Since I arrived in Canada a number of youths have expressed their desire to study for the Chinese a number of youths have expressed their desire to study for the Chinese mission but there are no fundato educate them. I appeal to you charity to assist in founding burses for the education of these and others who desire to become missionaries in China. Five thousand dollars will found a burse. The interest on this amount will support a student. When amount will support a student. When he is ordained and goes off to the mission another will be taken in and so on forever. All imbued with the Catholic spirit of propagating the Faith to the ends of the earth will,] am sure, contribute generously & this fund.

Gratefully yours in Jesus and Mary

THE LITTLE NATIONS

The fortunes of war have trans formed a noted pianist into the Premier of the ancient Polish nation. As Ignace Jan Paderewski, the new Premier of Poland, took his place an officer of his staff, according to the report, exclaimed: "God save Poland." The Prime Minister went to his dock roland." The Prime Minister went to his desk, saying: "One thing comforts me. It is that I have ninety five per cent. of the people with me. Perhaps the other five per cent. will make trouble. In any case we are only beginning.'

we are only beginning."
This modest scene, this simple ceremony marks the beginning of a new era for one of the smaller nations. The war was fought that all peoples, large and small, might when the handle of a direct region. enjoy the benefit of a direct voice in their own government. The Czecho Slovaks also have formed an independent nation, and this independence has been recognized by the
United States. Thus gradually the
principles that dominated the part
which this country took in the war
are going to be applied to the smaller
nations. Whenever a people gives
proof or just promise of its ability to
guide itself aright, this principle of
self-determination should be applied.
That it will be so applied appears to That it will be so applied appears to be a growing conviction as the work

of the peace conference progresses.

The question still arises, Will this principle of a free people hold good for Ireland? There is no doubt that

Ireland, like Poland, has ever by pro test and varied activities maintained the right to govern herself. As to the ability of her people, it were useless to argue. For it is a well-known fact that in every part of the world where Irishmen have settled they have demonstrated without a doubt their capacity for government. Scarcely a country is there where the Irish will not be found in posi-5 00 because it is been where the Irish will not be found in positions where energy, cleverness and unusual ability are required. England herself has on many occasions, both at home and throughout her colonial empire, profited by the talents and the genius of her Irish subjects. It cannot, therefore, with truth be said that Ireland is incapable of self government. When a man gives certain proof of his talents and ability, it is folly to chain him down to a condition of impotency, and then accuse him of lack of talent. If Belgium must be free, why not also Ireland?—St. Paul Bulletin.

The Story of Repatriation

The Programme of the Government Regarding Returned Soldiers and the Change to Peace Conditions

Just as Canada planned in war, so must it plan and organize for peace. The Government has therefore formed a Committee of the Cabinet, to deal with the following four problems now facing the country.

[1] Bringing the soldiers home.

Helping those who have suffered overseas to overcome their handicaps.

Having ready for every soldier and war-worker an opportunity for employment.

[4] Ensuring proper living and working conditions.

Every Canadian should know what plans the Government has developed to help solve these problems.

A N organization of experts has been formed been formed to help in the work of securing the closest co-operation of all the departments of the Government and of all the other agencies that may come into contact with the work of repatriation.

Bringing the Soldier Home

As soon as the situation permits, our soldiers will be brought home. The fighting corps in France will be returned as units, each unit composed, as nearly as possible, of men from the same locality. The remainder of the Canadian troops overseas will be demobilized in standard drafts of 500 men. Canada has been divided into 22 dispersal areas.

These drafts will be made up of men wishing to go to the same dispersal area.

Overseas there are also 50,000 dependents. These women and children will be brought to Canada at the public expense.

Thorough plans have been made to carry out this work of repatriation as speedily and efficiently as transportation facilities will allow.

Before the soldier arrives, he will be informed just what the country is prepared to do for

Getting Employment

To help both soldier and war worker secure quickly such employment as is available, a chain of Employment Offices is being established from coast to coast with the co-operation of the Provincial Governments.

The Government is also helping to create additional opportunities for employment through (1) Public Works, (2) Railways and Canals, (3) Export Trade Commission, (4) Shipbuilding, (5) The loan of \$25,000,000 for building workmen's homes, (6) Helping soldiers become farmers by providing land, loans and agricultural training.

To help tide the soldier over the period between the time when he is discharged and the time when he is established in a position, the Government is granting aWar Service Gratuity - on a scale more generous than that given by any other nation. This is in addition to any back pay, clothing allowance, etc., to which a soldier may be entitled.

The Disabled Soldier

The soldier who has suffered handicap through his service will be helped in two ways. (1) A pension will be granted to him in proportion to his handicap. (2) If he is so injured that he cannot follow his previous occupation, he will be "Retrained" for a new trade or vocation. While training, he will receive adequate pay and allowance.

At the same time, the Government is to provide free medical treatment, dental treatment, artificial limbs, surgical appliances, etc., where the need for such is due to a soldier's war

Public Effort

Voluntary organizations, Municipalities, Educational Institutions almost all agencies that touch on the social and economic welfare of the nation — have been enlisted by the Repatriation Committee to help in welcoming our soldiers home, in creating an atmosphere of contentment, in bringing Canada forward to a peace basis with all speed.

The story of Repatriation has been written in more detailed form in simple, interesting language. Every Canadian should read it. Write to this Committee at Ottawa for Booklet.
