

## Talk of the Town And of the Country

### MANY PASSENGERS TRANSFERRED.

Sunday afternoon 141 passengers and 102 pieces of baggage were transferred from the International Limited to the steamer Kingston at Brockville. The majority of the passengers here were members of the American Express Co. party returning to Detroit. The steamer did not stop here on the down trip being over four hours late owing to a heavy fog which prevailed during the early hours of the morning.

### SOLD APPLES.

Messrs. H. C. Bowen and W. H. Gibson, third concession, who own two of the largest and finest orchards in Durham county, sold last week to McWilliam & Everist, Toronto, Mr. Bowen's estimated pack of apples is placed at about 2500 bbls. and that of Mr. Gibson 5000 bbls.; valued at approximately \$40,000. The fruit of these orchards, of a large percentage is of the best varieties and high grade.

### PRESENTED WITH \$3,000.

A very happy event took place on Sunday morning, Aug. 8, at the close of the service in St. Francis Xavier church, Renfrew, when Rev. C. J. Jones, who for the past two years has been filling the position of parish priest, was presented with a most appreciative and kindly address, and a purse of \$3,000.

### SEIZED AMERICANS' LIQUOR.

Twenty bottles of liquor, alleged to have been for United States territory, were seized last Friday night at Gananoque dock by License Inspector F. B. Taber. Two American citizens brought the liquor to Gananoque from Montreal on G.T.R. train No. 19 and were, it is said, in the act of preparing to cross to the States when it was surprised by Inspector Taber.

### WHAT SOME TENANTS DO.

All the profiteering is not on the part of landlords. A Kingston paper heard of co-sey tenants who have made good returns on their rentals. One man rents a property at \$40 a month and sublets to others realizing \$78 a month. Another business man rents a building for \$600 a year and sublets it for \$660, getting his own quarters free of expenses.

### CHOSEN RHODES SCHOLAR.

W. H. Coates, graduate of the University of British Columbia, has been chosen this year Rhodes scholar for British Columbia. He is twenty-one years of age and the son of Rev. H. H. Coates, D.D.

### LITTLE BOY DROWNED.

When Mrs. George Tuckett, wife of the bridgekeeper at Beckett's Landing, on the Rideau, looked Sunday morning for her four-year-old son Jack, who had been absent from the house for half an hour, she found his body lying in the Rideau river in two feet of water. The boy fell into the river while playing in a rowboat. Dr. W. Clyde Dean, of the University of Nebraska, who was camping nearby, made an unsuccessful attempt at resuscitation and Dr. W. E. Storey, of Kemptville, who was called as coroner, decided an inquest unnecessary. Mr. and Mrs. Tuckett have one other child, eight months old.

### SOME NERVOY THIEVES IN PORT HOPE.

The latest stunts for the thieves now is to carry away verandah furniture or, in fact, anything they may find on the verandah. A lady's coat and sweater was stolen from a verandah on Brown street, Port Hope, the other evening.

### TAX RATE 47 MILLS.

Orillia's tax rate is 47 mills, 5 mills higher than last year. The increase is said to be due to the demands of the Board of Education. Port Hope's School Boards are responsible for quite a portion of their 39 mill rate.

### ESCAPED BY FLYING.

A man for whose arrest a warrant was out has just escaped from London to Paris by flying. The police were watching for him at the airports and railway stations, but not at the air ports. He rang up Croydon, the London air port, in the afternoon, and inquired about an aeroplane flight to Paris. It was explained that the afternoon machine

had just gone and that there would not be another until the following morning. Thereupon the inquirer, who said he was speaking from the West End, declared that he would hire a special aeroplane. "I must be in Paris tonight," he said. He was told, regretfully, that there was no aeroplane available at the moment for private hire, but he refused to take "No" for an answer and said he was coming down to the air port at once in a taxicab. "You must do the very best you can for me," he said. "The matter is most urgent."

### SOME GROWTH.

U. C. Sills, Richmond, shows a sample of ensilage corn measuring nine feet and three-quarter inches in height; also a sample of oats five feet, one inch in height, with well filled heads, measuring eleven inches in length.

### BELLEVILLE MINISTER AT UNION SERVICES.

The union services of the Lindsay Presbyterian and Methodist Churches Sunday were attended by a large congregation. The morning service was taken by Rev. Foster, of Belleville, an old Mariposa boy, who is visiting friends in town.

### MODEL SCHOOL OPENED.

The Model School at Kingston, opened Monday morning at Central School with a good attendance, under Prof. W. F. Imman. There has been a large registration this year and while all the registrants were not on hand Monday morning, it is expected that the attendance will be large.

### AMERICAN FIRM TO LOCATE IN PETERBORO.

Another American company is locating its Canadian headquarters in Peterborough, the Laundryette Manufacturing Company of Cleveland, Ohio. It has leased the warehouse of Rishers Limited, on Simcoe street, Peterboro, with the option to purchase and will be in operation by November 1st. This is the fifth American firm to locate its Canadian branch in that city, since last autumn.

The Laundryette Manufacturing Company manufactures the "laundryette," a copper washing machine, which not only washes clothes but dries them by centrifugal force and is operated by electric power. Since its starting in Cleveland five or six years ago it has grown rapidly and has been very successful. It will be incorporated in Canada, and at first will employ 25 hands with the probability of increasing this number to 50 within a short time.

The representatives of the company made a trip through Ontario in June looking for a suitable site and upon the recommendation of Heston's agency of Toronto came to Peterborough. After visiting other Ontario cities they decided upon Peterborough.

### PAINTFULLY INJURED.

Mr. Jos. Sullivan, of Lindsay, an employee of the Boring Hydraulic and Engineering Co., of that town, met with a painful accident on Saturday, being struck with a large brass ring, causing concussion of the brain. Dr. Rich was summoned and the injured man was taken to the Ross Memorial Hospital, where he is reported as resting nicely Monday morning.

### BEAUTIFUL PRINCE EDWARD.

A country correspondent of Pictou Times writes this: At the present season the countryside reveals a picture of brown pastures, golden harvest fields and the shining green of corn. The recent hot dry weather has hastened the harvest and farmers are busy.

Berries, which have been plentiful in both field and garden are dried by the sun's scorching rays. In the bushes of the garden are three empty birds' nests, a mute reminder that summer is passing. But a little brown bird is building a belated dwelling, gathering feathers to line it, and recently it was noticed flying through the air with a strand of white horse hair, held firmly in its tiny beak, but trailing several feet behind it like the tail of a falling meteor. One frequently wonders at the strength of these tiny birds.

Down on the pond above its dark dirt and slime, pond lilies are blooming, their pure white, waxen petals a sharp contrast to the darkness of the waters. These summer blossoms attract the tourist and the visitors from the city, and regardless of

quickness or bloodsuckers which cling tenaciously to the flesh, boots and stockings are discarded, and efforts are put forth to reach these attractive blossoms. But one who had recently the courage to wade out in the dark slime, says, "It is all right and safe if you keep stepping but if you stand still you will sink." However, his courage was rewarded by a fine bunch of waxen water lilies.

### DIFFICULT TO PLACE BLAME.

On Saturday afternoon, Anthony Rankin, M.P.E., when asked by the Kingston Whig who was responsible for the condition of the Kingston-Seely's Bay road, stated that it was almost impossible to lay the blame on any body in particular. He stated for the Ottawa Government had approved of the plans for the new highway, which extends from Kingston to Ottawa, which will go by way of Perth and Rideau Ferry, or in other words by way of Elgin and Seely's Bay, and it is now up to the provincial government to take over the road.

As soon as the provincial government takes over the road, it will mean that plans for the new highway will be put into action. Places on the road which at the present time are badly in need of repair will likely be attended to.

### AUTO LANDED IN RIVER.

On Thursday evening last Messrs. Phil and Noah Wheeler, W. Ray and Jno. Clark of Actinolite were on their way to Tweed in an auto, and when just on the outskirts of the village, where the road runs parallel with the river, Phil Wheeler, who was driving, struck a match to light a cigarette. The flames of the match probably blurred his vision for an instant, and in a much shorter time than it takes to tell the car was upside down in the river, after turning a couple of somersaults, with the driver pinned underneath it. The other occupants were thrown clear and escaped with a slight shaking up. The water is not deep at this point or Wheeler would probably have been drowned before he was extricated from his perilous position. Beyond a few abrasions he is none the worse of his experience.

### HASTINGS PIONEER LIVES TO BE 110.

Mr. Edward Hucklebone, who died recently near Rankin, is said to have been born in the fall of 1810, and so had nearly completed his 110th year. He outlived his eldest daughter, who predeceased him by a few days.

### U. S. CATTLE DUTY FREE.

Cattle from the United States may enter Canada duty free for another year. Dr. S. F. Tolmie, Minister of Agriculture, stated to-day that the Government had renewed the privilege extended last year for another twelve months. He also stated that an order in Council would probably be passed shortly providing for the free importation of United States sheep into Canada.

### CONVICTS HIDE IN ROBIN SWAMPS.

Up to late Monday afternoon the two escaped convicts from the Portsmouth Penitentiary, Griggs and Hilton, had not been apprehended. Guards remained at the swamp near Robin, some of them returning to the city Tuesday after being continually on the search since early on Saturday. The men were seen to enter the swamp on Sunday afternoon, and it is thought that it is now only a matter of time before they will be caught.

### KINGSTON PEN LEADS.

At the egg-laying contest in Ottawa the leaders for the past week, Mr. Coldham's Barred Rock Pen No. 11, Kingston, have by some excellent production compiled an enviable total of fifty-nine and in so doing they constitute a new record for a seven day's yield. The daily returns from this pen read thus, 8.3, 7.9, 10.9 and 8.4. It would appear that these birds have taken example from their pen-companion No. 1, which is the leading bird in the contest to date, by six eggs this week taken her grand total to 206, so that she now possesses a twelve point advantage of the next best bird.

### WILL BE FINE GATES.

Derf Head has been engaged to do the carpenter work on the Prince Edward Old Boys Memorial, at Pictou, and associated with him in the work will be his son, Glen Head and Albert Ostrander, both first class mechanics. Mr. Head himself is busily engaged in building the gates and when complete they will be as fine a piece of workmanship as it is possible to turn out in the carpentering line.

### APPOINTED AGENT AT SMITH'S FALLS.

John W. Kitchen, until recently freight agent at Brockville for the Canadian Pacific railway, has been appointed to act in a similar capacity at Smith's Falls, in succession to O. O. Weeks, who is retiring because of ill health. Mr. Kitchen will assume his duties in the course of a few days. Mr. Kitchen's early railroad experience was secured as an operator on the Grand Trunk, from which road he transferred to the C.P.R. Before the war he was agent for the C.P.R. at Bellamy.

### WILL INDUCE MINISTER.

The induction of Rev. A. W. Drysdale, now of Spencerville, who has been called to Knox Church, Westport and Newboro, will take place on Thursday evening, August 19, at 7.30 o'clock. The Presbytery of Brockville will meet shortly before the service. Rev. M. M. Ormond, of Prescott, will conduct the service. Rev. C. C. Salisbury, Cardinal, will act as moderator of presbytery and will induce the minister. Rev. R. McNab will address the minister, and Rev. H. Cameron, of Morrisburg, the people.

### MADE \$30,000 PROFIT.

A woman operating a chain of tearooms at several of the fashionable resorts in Florida and along the New England coast is said to have made a profit of \$30,000 during the past year.

### HAS BEEN NOMINATED.

Rev. Dr. Thurlow Fraser, Owen Sound, has been nominated by the Yorkton presbytery for the vacant professional chair at Westminster Hall, Winnipeg. He was a pupil at Almonte High School under the late Dr. P. C. McGregor and graduated from Queen's University.

### INCREASES IN ASSESSMENT.

Commissioner Edward Mooers has finished the work of assessing the city of Kingston. The probabilities are that about \$2,000,000 additional will be added to the city's valuation of property, etc. It is some five years since any advance in assessment has been made and an increase, everyone will admit has been about due. The increases range from ten to twenty per cent. It is expected that a lower rate of taxation will result next year possibly thirty to thirty-one mills on the dollar.

### COAL \$17 PER TON.

The Isabella H. arrived in Port Hope at noon Monday with three hundred and fifty tons of egg, stove and nut coal for Peacock & Co. It is expected, owing to the increases in freight rates that this cargo will likely sell at \$17.00 per ton.

### G.T.R. STATION BURGLARIZED.

When W. A. McMillan, of Wales, relief agent for the G.T.R. at River Beaudette, arrived at the station Monday morning he found the door of the ticket office open and tickets strewn about the floor. Some 20 tickets, the date stamp and a valuable fountain pen were missing. The thieves had effected an entrance through a side window. G.T.R. Detective Edward Allain was notified and proceeded to the scene. He traced two young men, one aged about 16 and the other 18, to Cornwall, where they had boarded train No. 18 for Montreal. The police of the latter city were notified. Some cash in the till at the station was untouched as well as the safe.

### "Hired Man WANTED."

Last summer a farmer living east of Port Hope, says The Guide, had much difficulty in getting a hired man to stay on the job. Man after man would start but after working just a few days would quit. Finally he got up a notice and tacked it up at his front gate, with the result that he got a man who stayed with him until freezeup. The notice read as follows: Hired Man Wanted—Hired girl is a good looking, piano music every evening, pie three times a day, three spoons of sugar with every cup of coffee, hammock, feather bed or leather couch at your option, for sleeping, free use of the automobile. Rising hours at 9 a.m., three hours rest at noon, quit work at 5. The boss tends to the horses, milks the cows and feeds the hogs.

### TOURING PRINCE EDWARD.

A motor tour of Prince Edward County was taken this afternoon by a large party of members of the Masonic Order, with them as guest was the Right Hon. Sir Gilbert Parker.

Mr. Alfred Willis, of Philadelphia, his wife and daughter Dorothy, are visiting Mr. T. F. Willis, 272 Ann St. Mr. and Mrs. Claire McAvoy, of Windsor, are visiting Mrs. McAvoy's sister, Mrs. Geo. Lee, 73 Cedar St.

## SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any of these troubles may prove deadly if not promptly treated. During the summer mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## To be Guests of Q. V. Niagara Falls Park Commissioners

On Thursday morning next a party of representative Toronto women will leave the city to spend two or three days as guests of the Queen Victoria Niagara Falls Park Commissioners.

The party will include Mrs. Van Kousneet, Soldiers' Comforts Association; Mrs. H. D. Warren, Women's Patriotic League; Mrs. W. Loughly Cummings, National Council of women; Miss Marie MacDonell, Rosary Hall Guild; Mrs. W. R. Jackson, I.O.D.E.; Mrs. (Alderman) Hamblin, Local Council of Women; Mrs. Albert Brown, Y.W.C.A.; Mrs. Graham Thompson, I.O.D.E.; Mrs. A. F. Rutter, Red Cross; Miss Church, Women's Canadian Club.

During their stay at Queen Victoria Park these ladies will visit every point of scenic and historic interest in the Niagara Peninsula. The tour is part of Mr. P. W. Ellis' campaign of publicity for the great park and boulevard system which the Commission is developing along the Canadian shore of the Niagara River from Lake Erie to Lake Ontario. Several groups of local educationists and others have been guests of the Commission this season, and other representative parties will make the trip later on.

Next year, and in succeeding years, invitations will be extended to representative men and women in Hamilton, London, Brantford and other cities, towns and localities throughout the Province. The purpose of these tours is to interest every community in Ontario in the unparalleled play ground which has been prepared for them upon the banks of the Niagara River.

It is worthy of mention that the 1,200 acres of park and boulevard within the Commission's jurisdiction has been acquired and is being developed, and beautified without a cent of cost to the tax payers. From the outset the Niagara Park and Boulevard System has been self-supporting.

## American Soldier Returns to Begin 99 Year Sentence

Handcuffs and Chains Were Mere Playthings

### HE MURDERED A SERGEANT

NEW YORK, Aug. 18.—Characterized as the American Army's most dangerous prisoner, Private John Mosher, guilty of murder, returned yesterday to the United States army transport Pocahontas and was taken under heavy guard to a train for Fort Leavenworth, Kansas, to begin a 99-year sentence at hard labor. Mosher, a tall, good-looking chap, with as mild a face as one could see, was one of the twenty-five general prisoners making the trip across under charge of Lieutenant M. C. Handwerk. The soldier was found guilty by a court martial of killing Sergeant Lester Call while on duty with the army of occupation in Germany. At his trial a long criminal record was disclosed, and it was established that Mosher had broken out of jail in Denver just before he joined the army.

On the way over, Lieutenant Handwerk, knowing that Mosher had a reputation for escaping, took every precaution to keep his charge in custody. In addition to doubled guards, the officer put a ball and chain on Mosher's left ankle. The ball weighed 40 pounds, and every time the Lieutenant thought of it he cheered up.

One day, however, the officer, feeling the heat himself, thought it would be a humanitarian act to relieve Mosher of his encumbrance. So Handwerk went down to the cell. Mosher was sitting comfortably, roll-

ing a cigarette, and his feet were cocked easily against the wall of the cell. There was no ball and chain in sight.

"Where's the ball?" asked the astonished Lieutenant, as he complied with the prisoner's motion for a match.

"Oh," replied Mosher, as he inhaled the smoke, "it disturbed me. I threw it out the porthole a little while ago." Handwerk said nothing in reply. He went up and got the biggest and strongest pair of German handcuffs obtainable on the ship. They were put on Mosher. But it was a waste of time. A couple of hours later the guard outside the cell was hit on the head with the German handcuffs. Mosher explained that they hurt his wrists so he took them off and tossed them over the transom. After that Mosher saw nothing but olive drab for no matter which way he looked an armed guard was watching him.

The killing of Sergeant Call occurred when the non-commissioned officer tried to arrest Mosher, following one of the latter's many absences without leave. While awaiting trial in Coblenz, Mosher and another prisoner made a "revolver" out of wood and tin foil, saved the cell lock, held up the guards and enjoyed a brief spell of liberty.

## To Blacklist U. S. Deserters

Men Who Failed to Respond to the Draft Call Number 173,911.

WASHINGTON, Aug. 18.—The war department will shortly publish to the country the names of 173,911 men who are listed in the records of the department as men who "willfully failed" their country in its hour of peril. The records of the department, it is stated, show that this army of deserters, who total in number more than six full war strength divisions of troops, were called to the colors and that in each instance the man called willfully neglected to respond. It is understood that the names will be grouped by localities and as soon as this is done and the lists made public every loyal American will be called upon to aid the government in bringing the deserters to justice.

In bringing the deserters to justice, the war department will be a man hunt the like of which probably never took place in any country in the world. The war department, it is officially stated, will not pursue a policy of "unjustifiable leniency" in dealing with these persons, who are scattered in all parts of the United States and in many instances have sought refuge in foreign lands, particularly in Mexico and other Central and South American countries.

## Leave Burning Boat for River and Safety

Eight Persons, Including Four Children, Had Narrow Escape Near Alexandria Bay

ALEXANDRIA BAY, Aug. 17.—Eight persons, including four children, narrowly escaped death Saturday night when an explosion occurred in the motor boat Damfino, owned by Alvin Markle, summer resident of Imperial Island, shortly after the boat left the Markle dock on her way to Alexandria Bay. The boat was nearly enveloped in flames and six of the party donned life preservers and jumped into the river. Mary and William Barnard, grandchildren of Mr. Markle, aged about five years, with their nurse who was unable to adjust the life preservers, were rescued by E. B. and Alvin Markle, Jr., who swam to the burning boat. The craft is a total loss. None was injured except Arthur Tierble, chauffeur, who suffered singed eyebrows.

### NO SHIPS TO ENTER DANZIG

LONDON, Aug. 18.—A despatch from Danzig says it is reported that Sir Reginald Tower, High Commissioner at Danzig under the League of Nations, has issued an order that no ships with munitions for Poland shall be permitted to enter Danzig. Should such ships arrive he will submit the whole matter to the council of ambassadors. The despatch adds that one ship from Antwerp already has been ordered to remain at sea.

### CANADIAN SETS WORLD RECORD.

ANTWERP, Aug. 18.—Earl Thompson of Prince Albert, Sask., representing Canada, in Olympic games today won the final heat of 110 metres hurdles hanging up new world's record of 144 seconds. H. E. Barron, Philadelphia, was second and F. S. Murray, New York, third.

## FOR SALE

FARM OF 62 ACRES, 9 MILES from Belleville, good buildings, daily mail delivery, will exchange for city property. G. N. Phillips, R.F.D. No. 6, Belleville, 16-5td.11w

GOOD GRAIN AND STOCK FARM, being east half of lot 11, 18 miles south of Morris, consisting of 100 acres in good state of cultivation, drive house and well watered, small orchard and well watered, will sell with or without stock and implements, rural mail and telephone. For further particulars apply to J. W. Savers, R.F.D. 11, Morris. 11-4d&wt

128 ACRES, 9TH CON. THUR. Grain Farm, 2000 Buildings, well watered. For further particulars apply to Michael Haley on premises. 15-4d&wt

100 ACRES, 3RD CON. TYEN. Fine, good building, good land, well drained, abundant water, School, churches, store, station, all conveniences. R. C. English, R.R. 1, Shawanville. 10-2td.2w

## Inquest Concluded

Marmora, Aug. 17.—The inquest in connection with death of the late Mrs. Minnie Eva Boyd and her infant daughter Maxine Boyd, was concluded on Tuesday last. Coroner Dr. Alger, of Stirling again presided and Mr. Wm. Carney, County Crown Attorney, of Belleville, was present to represent the crown.

The witnesses called were Mr. W. H. Litt, Mrs. H. Russell, sister-in-law of the deceased Minnie Eva Boyd, Constable H. Gillen, Dr. D. Thompson and Mr. Alex. Boyd, Dr. George Riley and Mrs. Bert Boyd, husband, father and sister of the deceased Minnie Eva Boyd respectively.

The witnesses gave very little new evidence. Mr. Litt and Dr. Thompson had examined the remains of both mother and child very carefully and had found no evidence of violence or foul play in either case. Both were positive that death of mother and child was the result of drowning. The relatives of Mrs. Boyd were questioned particularly as to the physical and mental condition of the deceased for the period just previous to her death. The evidence showed that she had been married while a comparatively young girl. She was in her 25th year. The oldest child is 8 years old and the baby was nine months. In all there were six children. Recently the deceased had been worried over the children and felt the older ones were getting beyond her control. As a result of her worry she had been anxious to have all but the baby placed in the children's shelter at Belleville, and the baby also complained of a severe and long continued pain in her head. The witnesses were very emphatic that there had been no trouble at home that would be sufficient to cause the rash action of the late Mrs. Boyd.

After concluding the evidence the jury were instructed to bring in separate verdicts in the case of the mother and child. The verdicts as returned were as follows:

"That Minnie Eva Boyd came to her death in the Village of Marmora on the 13th day of July, 1920, by drowning in Crowe River as a result of her own action, and that the taking of her own life occurred while she was mentally deranged, as a result of worry over her children and severe pains in her head following an attack of influenza."

"That Maxine Boyd, infant daughter of Alexander and Minnie E. Boyd came to her death in the Village of Marmora on the 13th day of July, 1920 by drowning as a result of being thrown in Crowe River below dam in the said Village of Marmora, by some person or persons not revealed by the evidence, but presumably by her mother, Minnie Eva Boyd."

## FRENCH PROTEST AGAINST TOWER'S DECISION.

PARIS, Aug. 18.—The French Govt. intends to protest against Sir Reginald Tower's decision, it was learned today.

## LLOYD GEORGE TO VISIT CANADA

NEW YORK, Aug. 18.—A special dispatch from Washington printed in the "World" today declares that Premier Lloyd George is to discuss the Anglo-Japanese treaty with the Premiers of the British Dominions at a conference to be held in Vancouver this autumn. It says Premier Lloyd George will cross the Atlantic in October to meet premiers of all British Dominions on the Pacific for a conference on the renewal of Anglo-Japanese relations. During his stay in Canada Lloyd George will be invited to Washington.

Mr. and Mrs. Austin Malaya, of Chicago, is visiting Mrs. Geo. Lee, 78 Cedar Street.

Ex-Mayor A. G. Vermilyea left today for a couple of months' visit with relatives at Yorkton, Saskatchewan.
