ST. JOHN, N. B., JANUARY 14, 1910.

THE COMMON COUNCIL AND THE BOARD OF TRADE

The hundred and twenty-five business men who assembled in the Board of Trade rooms yesterday were almost unanimously in favor of the immediate adoption of a permanent paying scheme, and almost unanimously opposed to the complication of this important matter at the present time with the proposition for the construction of a bridge across the harbor.

The Board of Trade cannot lay claim to the powers and authority of a representative body. Its members are not elected, and stand only for their personal opinion. But while this is technically true, it must be admitted that an organization which counts in its membership practically every business man in St. John can command, on a stormy day like yesterday, the attendance of 125 leading citizens, should carry some weight.

CHURCH AND DEMOCRACY

Men accustomed to Canadian conditions and it difficult to understand the Liberal politicians appeal for support in their contest with the House of Lords, to the members of the non-conformist churches, wherever they are, the wisdom and wisdom of the conflict, the discontent of the Non-conformists of England is very real and constitutes a force that must be reckoned with by political parties.

ATLANTIC FREIGHT RATES

Mr. Andrew Allan, of the Allan line, in interviews in Saturday's paper, defended the proposed increase in ocean freight rates on the ground of increased cost in almost every feature of transportation.

greatly humiliated by the fact that ages ago there were spiritual giants. But when living men because of their ecclesiastical position profess to possess special authority in the discovery and impartation of religious ideas there is certain to be trouble.

It is unfortunate that occasionally superficial criticism of details of civic management by individual members of the Board of Trade should have tended to create among some aldermen a feeling of resentment against the Board, and of instinctive resistance to its suggestions.

PLANS AHEAD

Discussing, with warm approval, the recent action of the City and citizens of Ottawa in establishing a Publicity Bureau with a budget of \$15,000 yearly for expenditure in civic advertising, the Ottawa Journal gives the advice, which is as good for St. John as for that city, that there should be some definite plan of action extending for a definite term of years into the future.

THE PEOPLE AND THE INTERESTS

President Taft is, in all likelihood, technically correct in dismissing Mr. Pinchoff. The chief objection to Mr. Pinchoff's nomination for the position of Secretary of the Interior, Mr. Ballinger, in opposition to Mr. Pinchoff's plans, is protecting the "interests." Public sentiment over the President's action in the circumstances will be much to be desired.

"GEMUTLICHKEIT"

It is easier to criticize than to construct or even to commend. That is human nature. And admittedly there is much to be criticized. But there is also much to be commended in what is being done. And there is no doubt as to which policy "Gemutlichkeit" is better for the world in general and for this city in particular.

GERMAN INTENTIONS

The importance given to the German war scare by Mr. Balfour has turned public attention to that country. William II is now the champion of Europe. He is not only his own Emperor, but as supreme commander of the army and the navy, can command a force such as has never dreamed of, and can declare war and mobilize without asking the consent of any one.

experience of foreign affairs, the Kaiser has assumed the active control of the foreign affairs of his Empire. The main features of the policy which Mr. Grigg points them out, are these: Freight rates to Canada from Great Britain are controlled by the North-Atlantic Westbound Freight Conference.

The determination to make for Saint John, a brighter and a better day, is not peculiar to a few enthusiastic folk. The movement is significantly general. It is entering upon the year's work with unusual vigor and aggressiveness. Already, we have the announcement of an evangelistic campaign to be conducted in the month of February.

WAKING THEM UP

In its effort to interest the school children of St. John in matters affecting the city's progress, the Board of Trade has shown good judgment. The annual session of the Albert County Council opens at Hopewell Cape.

vacant seat over the Premier's disapproval. As the case is stated by the Liberal organ at the Capital, Sir Wilfrid Laurier has done more than to say, in answer to a delegation of prominent Ottawa Liberals, that he did not approve of Mr. Lemieux as a candidate.

There are two forces opposed to the realization of the ambitions of the Kaiser. One is the activity of the Socialists. The rise of Socialism is not confined to any country in Europe, but it is especially marked in Germany.

meets that are being held throughout the valley indicate not only keen interest, but a rising tide of angry protest at the party trickery of politicians on both sides who, in their effort to twist the proposed railway into a trap for each other, are delaying any practical step toward the construction of the road.

THE VALLEY RAILWAY

The people of the St. John river valley are anxiously waiting for the result of their determination to force the Valley Railway from its present position as a party political football into public attention as a live public issue.

As a speaker said at the meeting at Southampton last week, reported elsewhere in The Sun, "Drop your politics a year or two, put the same energy into booming the Valley Railway and you will get the road."

Rev. A. H. Morse is Brother of Dr. Morse—Shipping News

DIGBY, Jan. 11.—In the splendidly appointed council chamber in the new Court House the Municipal Council convened this afternoon in annual session.

"Glad Young Year"

Thy feet are light upon the morning dew. O glad young year!

A ray voice floated from the untroubled sky. Like a child's laugh, "Mortal, I know not, I!"

A voice replied from out the unfathomed sky—"I show my face to no man, no, not I!"

In a twelvemonth thou wilt be old and wan. Thou short-lived year!

A deep voice echoed from the far-off hills. "Ask me not thou, Mortal, God knows not I!"
