Sir Wilfred Laurier on Anti-Japanese Legislation.

Dr. Sanson Likely to Be the Candidate in West Yale.

(Special to The Miner.)

VICTORIA. Jan. 29.-Sir Wilfrid Laurier told Messrs. Prior and Eberts today that as long as British Columbia insisted on connecting Japanese with Chinese in its legislation so long would the imperial authorities for imperial rosons insist on its disallowance

Dr. Sanson leaves tonight for his ome in Clinton. Government Supporters state that it is definitely decided that he will run in West Yale.

The sealing schooner Sadie ran ashore near Esquimalt harbor this morning during a heavy southeast gale which raged here. The schooner had left port the day before on a sealing She is now high and dry on the beach.

The steamer Queen City, which arrived tonight, brings news that a life buoy from the bark S. C. Allen of Port Townsend has been found at The Neuchatalatz, Esperanza sound. S. C. Allen was last reported at Honolulu on December 22nd, and is under stood to have left there for Puget sound. She had a rough trip south and the buoy may have been wasked from her then. The steamer also brings news that the body of a man has drifted ashore near Clayoquot. It was evidently that of a sailor, for the remains were clad in oilskins. There was nothing in the pockets to identify the corpse, which was probably that of one of the sailors of the Prince Arthur, wrecked on January 4th near Ozette, for the current carries wreckage from that vicinity to the Vancouver island

CANADIAN FOOTBALLERS.

A Defeat in Paris and a Victory Over

MONTREAL, Feb. 2.-The Star's London cable says: There was an enormous gathering at Auteuil, Paris, on Sunday afternoon to witness the match between the Canadian footballers and the Racing Club of France. It is reported that their parents cabled forbidding three of the Canadians playing on Sunday, and their places were taken by English players. never before played a team from across the Atlantic, and the occasion was signalized by the presence of M. Escuider, president of the municipal council, and Hector Fabre, Canadian commissioner to France. The weather was clear and crisp. A great ovation was accorded the Canadians. The Racing Club lost the toss and began operations against a strong wind and under the captainship of Rutherford they did splendid work. The first half ended with a tie, three points each. In the second half his efforts to secure its institution. the Racing Club seemed to play with even greater spirit, every effort of the Canadians being brilliantly met. Finally Rutherford scored and the Canadians were beaten by eight points to three. There was great cheering at the Thursday.

Never before was so

much interest taken in a football TORONTO, Feb. 2.—The Telegram's cable says: The All-Canadian ball team played the London Scottish team today at this place in splendid weather and on the same grounds on which they played Richmond on Friday last. Five hundred people attended. The Scotchmen attacked strongly from the start, but the Canadians soon had the struggle in Scotch ground, with both sides nearly scoring several times. After twenty minute the Scots scored a try, which was not improved. The Scottish try was scrum med over. At half time the score stood Scottish, Canadian 0. On resumption of play Tait cleverly scored a try, but failed to improve. The Canadians at times excelled in passing and tackling. Finerty scored a try, which Tait improved, and at the finish the score was: Canadian 8, Scottish 3. The game was splendidly played all through, although the Scottish is considered one of the best teams in the country. Three members of the Scottish team played yesterday in Paris with the Canadian The final game of the series will be against the Reading Wanderers on

French triumph.

Saturday. KING EDWARD'S HEALTH.

LONDON, Feb. 2.-King Edward and Queen Alexandra were to have gone on a visit to the Duke and Duchess of Devonshire at Chatsworth this afternon, but their departure was post poned at the last minute for the reason that the King was suffering from a feverish cold. His majesty was planting trees at noon some distance from Windsor castle, and appeared then to be in excellent health and

There is really He is expected to return home next nothing more to say."

GREENWOOD MINES.

Work Done on Properties Close to th

(Special to The Miner.) GREENWOOD, B. C., Feb. 2.-Jas. Sutherland and Phil McDonald, who have a working bond on the Elkhorn mineral claim, situate north of Greenwood and just outside the city limits and owned by C. L. Thomet, of Midway are meeting with more encouragemen as they make progress with their prospecting work on the claim. In Decem ber they commenced sinking a prospec shaft between the old workings and the Elkhorn brewery, following the vein down. For about 33 feet there was little ore of any account, but at that depth a narrow paystreak of clean quartz carrying zinc and galena, with gold and native silver showing in places, came in. At 42 feet in depth this paystreak is inches in width of high grade ore, lesides which there is about a foot of poor ore, chiefly quartz mineralized with ron and a little zinc and galena. vein being sunk on is confidently believed to be a continuation of the lead in the adjoining Providence claim, from which between \$15,000 and \$20,000 worth

of high grade ore was taken last year. J Wilmhurst and two other men are working on the Helen claim, at Anacenda, under a working lease and option to purchase. They are drifting and stoping, and purpose shipping a car of ore about the end of next month. The vein varies from 10 to 15 inches of high grade quartz, with values in gold and sover. The property is owned by the Boundary-Helen Gold Mining Co., of Greenwood, but it has not been worked

by the company since 1897. The increased interest in the nu us gold-quartz claims around Greenwood is proving of benefit to the business interests of the town. Already about 40 men are regularly employed on the half dozen of these claims upon work which is being done, and inquiries are being made with the object of securing men with a little enterprise to go to

work on them. A requisition to R. Smailes, who was tily entered into the day before election day, resigned that office, is being numercusly signed by ratepayers and also by many business men who are not electers, but who have important interests in the city, asking him to consent to renomination, the circumstances that led to his resignation not now being regarded by the requisitionists as a bar to his serving the city in the capacity of mayor. Mr. Smailes is at the coast at present, but his friends are in telethe subject. Monday next will be nom ination day, so a prompt decision must

## SILVER-LEAD DELEGATION

What Members Have to February 3, as the day upon which Say of the Visit to the Capital.

A Cordial Reception and a for the benefit of an employe who was Sympathetic Hearing.

(Special to The Miner.)

KASLO, Jan. 30 .- Mr. John L. Retallack and Mr. George D. Potter, the representatives of the Slocan silver-lead mine owners in the delegation to Ottawa on the silver-lead situation, returned yesterday. In an interview Mr. Retallack, who acted as spokesman for the delegation, said to a Miner representative that the delegation was able to obtain the following success:

The delegation were most favorably re ceived by Sir Richard Cartwright and Messrs. Fielding, Blair, Patterson, Bernier. Fisher and Sutherland, of the Federal cabinet, who gave them long audiences and plenty of time in which to express their views. Each and every minister went thoroughly into the question and agreed that the mining conditions of British Columbia needed attention. Mr. Retallack stated that the cabinet being made with the object of securing was as a whole keenly alive to the situ-other claims upon terms that will induce ation and that he was hopeful of good results attending the efforts of the dele-

gation. After the return of Mr. G. O. Buchanrecently elected mayor of Greenwood, and an of Kaslo and Mr. Campbell of Nel son, the remaining members of the dele gation waited a few days in Ottawa and were then able to obtain an inter view with the premier, Sir Wilfrid Lau and though Mr. Retallack said they were sorry to note that Sir Wilfrid did not appear to be in the best of health, yet he accorded them a most sympathe tic reception and expressed his willing favorable state of affairs in the minin industry. It was, of course, impossil or for any of the other minis ters to pledge themselves to any stated course of action, but every attention was promised for the requests and sug-gestions of the delegation. According to the minister of agriculture, one of the great difficulties lay in the matter of the different labor conditions of the East and the West. He had found it impos-sible to get his constituents to under-A. W. WITH A VIEW TO RENEWED WORKING.

RECENT STRIKE ON THE CALI- ERSTWHILE ROSSLANDERS TO FORNIA-EFFECTS OF COKE SHORTAGE

(Special to The Miner.)

REPUBLIC, Wash., Jan. 28.-The prospect of the renewal of operations on the Republic mine has added a favorable feature to the mining outlook in this camp. John Bresnahan, who was superintendent of the property under the former Clark regime, and W. J. Casey, who held the same position under the new company, have been exploring and sampling the mine for two weeks. Two men are engaged in clearing out the main tunnel so that work can be resumed. Patrick Clark is expected here soon to examine the workings and map out plan of devlopment for the future.

development has been the recent strike on the 500 foot level of the California mine. While the ore body is not at all phenomenal, the values are similar and the width of the vein is the same as has ben opened in the levels above. While the roads are in good shape, shipments from this property are being rushed, from five to ten carloads being sent out each week. The company owning the California is a New Haven, Conn. corporation, that has ample means, and the recent developments on the proper-ty, will probably cause them to put

In a mining way the most favorable

in machinery that will enable them to sink to the 1000 foot level. The recent suspension of active opera-tions on the Lone Pine has forcibly brought to mind how much mining oper ations are being hampered here by the scarcity of coke at the Boundary smelters and the necessity of the mine owners looking elsewhere for a market for Republic ores. About a month ago small samples were sent to Anaconda, Mont. for tests, and larger shipments will soo be made to that point. It is believe that the adaptability of the ores here for converter linings will induce the Ana-conda people to give a rate that will enable Republic to send two or three thousand tons per month to the Montana

but no confirmation of the report has been secured here.

The Quilp, which has ben closed since last week while the boilers were being cleaned, will probably resume operations next week. The Ben Hur is working a small force of men developing the property through the Trade Dollar workings. 'R. J. Danson, a prominent member of the Spokane bar, and manager of the reorganized Gold Ledge company; has been here several days arranging to has been here several days arranging

resume work on that property through the long tunnel.

### REPUBLIC MINES SOME NEW FEATURES

INSPECTION OF THE REPUBLIC OLD-TIMERS' REUNION TO BE HELD DURING CARNIVAL

> FOREGATHER HERE ONCE AGAIN.

As the date for the opening of Rossland's Midwinter carnival draws nearer and nearer the various sports and prize committees are concentrating their attention towards perfecting a pleasing program. The sub-committee the board of trade rooms with all their sports scheduled and ready for inser-sion in the official program, which the committee will issue in a few days The program, like every other feature of the carnival, will surpass anything of its kind ever produced here.

OLD-TIMERS' REUNION.

A feature that has been overlooked in the past, but which will be brought to the fore this year, is a reunion of old-time Rosslanders in this city during the carnival. The secretary of the carnival committee, A. B. Mackenzie, has sent pressing invitations to "oldtimers" who reside elsewhere, and has received many favorable replies in return. The writers are heartily in favor of the idea of bringing about a reunion of the pioneers of the camp, and think that no fitter time could be fixed on than the carnival dates. Ross Thompson and several other prominent old-timers of the camp will probably comprise the committee that is to look after the welfare of visitors who helped to bring this camp into prominence in tim

gone by. In connection with the idea of hold ing a reunion in this city the carnival secretary has written to mining men and others who have either lived in and others who have either lived in Rossland or on account of important interests here have visited the city or are associated with those that are staying with the camp. Each one written to was asked to canvass other "old-timers" whom they may know, with a view to making the reunion a grand

success. Among those written to one the subject are the following:

J. H. Tonkin, Fernie; Col. Ridpath, hotel man, Spokane; Col. Peyton, Spo-kane; C. C. Woodhouse, Republic; C. O. Barness and George Pfunder, Republic; Oliver Durant, Culpepper, Va.; E. P. Davis and Charles Wilson, Vancouver; Hon. Col. Prior, Victoria; H. M. Adams, J. D. Farrell, P. A. O'Farrell, F. Aug. Heinze, C. P. Cha lain, James Breen, A. B. Can John A. Finch, J. P. Graves, Geo Crone, W. J. Snodgrass, August Cor-bin, D. C. Corbin and others in Spo-kane, and to Gen. C. S. Warren, Tono-pah; E. J. Coyle, Vancouver; W. A. Galliher, Nelson; A. C. Flumerfelt and Galliher, Nelson; A. C. Flumer, W. Y. Williams, Grand Forks.

THE GRAND TOBOGGAN. The feature of the carnival will undown Washington street. The course is being rapidly put into good condi-tion, and by the time the carnival opens it will be one of the finest tobogworthy past grand president, James McCreath; president, J. W. Nelson; vice-president, H. B. Madden; secretary, Charles Wilson; treasurer, A. H. McMcDonald and George Wellwood, chaplain, Thomas Gainer; trustees, Philip McDonald, Duncan Campbell and Fred Munn. A numerous visiting delegation of Eagles was present from Phoenix and Grand Forks to assist the deputy grand of Eagles was present from Phoenix and Grand Forks to assist the deputy grand of the lower than the measures to engange and they could not be brought to help in bettering the condition of men who they think are at the brought to help in bettering the condition of men who they think are at the brought to help in bettering the condition of men who they think are at the brought to help in bettering the condition of men who they think are at the brought to help in bettering the condition of men who they think are at the brought to help in bettering the condition of men who they think are at the brought to help in bettering the condition of men who they think are at the brought to help in bettering the condition of men who they think are at the brought to help in bettering the condition of men who they think are at the brought to help in bettering the condition of men who they think are at the brought to help in bettering the condition of men who they think are at the brought to help in bettering the condition of men who they think are at the brought to help in bettering the condition of the Blue Horse group on Iron mountain, alout 15 miles southeast of this city. The property was recently bonded from E. Larson, Joe Pape and E. S. Boy. The property was recently bonded from E. Larson, Joe Pape and E. S. Larson, finished the course. The West Koote-nay Power & Light company has had men at work during the past two days stringing wires down the side of the course. Incandescent lights will be course. Incandescent lights will be suspended ever few feet, so that the course can be used day and night as

CHEAP EXCURSIONS.

The chances of running cheap excursions to Rossland during the carnival look very bright at the present moment. It is understood that the Spokane Falls & Northern will reduce the present tariff between Spokane and this city to \$5.25. It is hoped by the carnival committee to have the Spokane Falls & Northern make the excursion rate from Spokane to this city an even \$5, in which event Rossland is sure to draw an enormous crowd of visitors from northern Washington. draw an enormous crowd from northern Washington.
