BIG PROFITS IN STRAWBERRIES

Properly taken care of an ACRE OF STRAWBERRIES will return more net profit than any other acre on the farm, an net profit is what we are all after nowadays. Too many farmers have been content in the past to raise crops, the price of which barely paid for the cost of production.

Other things being equal, the bigger the crop, the bigger the profit, and the man that buys our plants is taking a sure step in the direction of a big crop.

If you are a new beginner in growing berries the most reliable variety you can try is the SENATOR DUNLAP; if you are an old hand at the business you will know enough to set Dunlaps without advise from us. The price of our Dunlaps,—well rooted, big crowned fellows,—is \$3.50 A THOUSAND. \$3.25 a thousand in lots of 5000 or over. We are also listing some promising new varieties. Catalogue Free.
