Choking With Bronchitis.

Madame Gauthier, of Montreal, Suffered for Two Long Years Before She Obtained Any Relief.

Then She Tried Powley's Liquefied Ozone—The Disease Germs Were Speedily Destroyed and She Was Better.

She is Now Completely Cured and Pronounces Ozone a Truly Marvelous Remedy.

I rejoice to be able to state that after two long years of great suffering from bronchitis, in which I was the victim of a most distressing coughing and smothering sensation. I have been completely cured by Powley's Liquefied Ozone. I consider it a truly marvelous remedy and warmly recommend it to all.

(Signed) MME. T. GAUTHIER,
701 St. Paul St., Montreal, P.Q.

MADAME GAUTHIER.

The following are brief extracts from the letters of a few of the many hundreds of persons who have been cured of bronchial affections by Powley's Liquefied Ozone:

JOHN M. SMITH,
225 Wellington street, London, says: "I suffered from chronic bronchitis from childhood. I tried every remedy I could hear of, but got no relief until I got Ozone. I consider it a great boon to humanity, and hope the public soon learns to appreciate it."

MRS. B. HENDREN,
62 St. Clarendon ave., Toronto, says: "For four or five years I suffered terribly from bronchitis and asthma. I tried all kinds of remedies but got no better. Ozone helped me at once. Since commencing to take it I have gained 20 pounds in weight, have much greater vitality and sleep splendidly, something I could never do before."

J. W. KIRKUP,
781 St. Urbain street, Montreal, says: "I had taken but two bottles of Powley's Liquefied Ozone when I was cured of a very serious attack of bronchitis, and to-day I am entirely free from this trouble. I consider this remedy the greatest discovery of the age for curing disease."

Ozone is a Healer and Cannot Injure.

Many drug preparations used to alleviate the symptoms in pulmonary and bronchial affections give a certain amount of temporary relief, but at the same time prove injurious to different organs of the body. This is especially true in the case of persons with weak stomachs. Powley's Liquefied Ozone contains no drugs, and instead of irritating a delicate stomach soothes and heals it. In fact it is impossible for Ozone to prove anything but beneficial to every organ of the body. It simply cures disease by destroying the disease germs that cause it. Powley's Liquefied Ozone is sold only by reliable dealers—never by peddlars. Price 50 cents and \$1.00 per bottle. Our free book on receipt of name and address.

The rains and bright sunshine are already making the meadows green, and there is every justification for the exceptionally early start being made by the cheese manufacturers. If fine weather continues the make of fodder cheese will be very small indeed.

Arrangements for the construction of the proposed electric road between Toronto and Cornwall are now said to be completed, and that the projectors expect to have it finished by January, 1904. FOUND IN THE CHEESE

London, March 24.—While Shopkeeper Kingston, of Surrey, was cutting open a Canadian cheese, he found a small bottle. Inside of it was a note, signed by Miss Eva Halliday, of Elgin, Ontario, asking the finder to write to her as to the quality of the cheese, when it was received and the price paid for it, as the writer was curious to know of the ultimate destination of the local factory's cheese. The desired information will be forwarded.

A GOLDEN WEDDING

Mr. and Mrs. Horace Brown celebrated the fiftieth anniversary of their wedding on Tuesday last. Between thirty and forty guests were present including Mrs. (Dr.) O. Stowell, of Watertown, N. Y.; Mr. and Mrs. Myles Lockwood, of Phillipsville; and Mr. Anson Manhard, of Fairfield. The passing years have dealt kindly with Mr. and Mrs. Brown, and they were able to receive their friends and with them enter fully into the enjoyment of the occasion. The bridal couple received several handsome tokens of esteem and good wishes from their friends.

Mr. Horace Brown and Miss O. Stowell, daughter of the late O. O. Stowell, were both born at Addison and were united in marriage at that place. About twenty-eight years ago they removed from Addison to Athens, purchasing what is known as the Barber farm, near the toll-gate. Here they followed farming successfully for several years, eventually selling out and buying the Farmersville Creamery. With this also they were successful. Since disposing of this business, they have lived a quiet life in their comfortable brick residence on Main street.

Mr. and Mrs. Brown well deserve the comforts with which they are surrounded, and the Reporter joins with their wide circle of friends in most heartily wishing them health and happiness.

THE B. & W.

Great things are now spoken of in connection with the B. & W. The purchasers have completed their payment for the road and will take possession on the 1st of April, and then, we presume, the name will be changed to the Brockville and North western Railway. Steps are now being taken to make the railway belt its new designation. The provisional directors are Messrs. W. H. Comstock, James Cumming, W. S. Buell, Daniel Derbyshire, R. Bowie, W. C. Fredenburg, and these gentlemen went to Ottawa to interview the government in connection with the extension of the road.

One of the purchasers, in conversation with the Recorder, stated that the extension of the line from Westport in a northwesterly direction would be commenced just as soon as the charter is granted. The intention is to tap the forests of that section of the province, and negotiations are already in progress for the establishment of a mammoth furniture factory at or near Brockville, much of the raw material for which will be brought in over their line from the north.

What is of more immediate importance to present patrons of the road is the announcement that the new timetable of the B. & W., going into effect early in April, will provide for the running of two trains. It is expected that the morning train from Westport will reach Brockville about 9 a. m., and that the new train will leave Brockville about 9 a. m. and return about 10 in the evening.
