the Provincial Premiers have been laid before the Federal authorities, and an answer to their request for an increase of subsidy is expected to-day.

It is understood that the provinces will have to give up their claims to a control of the fisheries in order to obtain an increased allowance, and that the Premiers of all the provinces have practically agreed to this. The commercial travelers' tax will be abolished by British Columbia, Quebec and Prince Edward Island.

The provincial delegates expect to be able to leave the capital on Friday, with the assurance that their application for an increased subsidy has been granted.

Halifax, N. S., Oct. 11.—A St. John's, Nfid., despatch says:

It is obvious enough to say Newfoundland has partially herself to blame for the weakness that has helped to persuade her "protector" to desert her, since she has refused to enter the Dominion of Canada, but it cannot be assumed that even if Newfoundland had stood with the Dominion at her back, she would have found the Imperial Government staunch. Canada herself has been subordinated to a "higher interest" before now.

The Mail says Newfoundland's wis-est course is to join Canada. The Telegraph advises Newfound-land and Canada to have patience on the fishery question, because no dov-ernment will be permitted to sacrifice the vital interest of any colony to curry favor with any power.
