Tibbits May Try Albany.

Tibbits May Try Albany.

There has been some correspondence with Jim Connors, the new manager of the Albany Club of the New York State League, which may end in James Tibbits and George Finnamore playing in the New York League this season. Tibbits dickered with Manager Howard Earle last season but would not sign the A. J. & G. contract forwarded here to him. Manager Connors was purchased by the Albany Club a few days ago from the Providence Eastern League Club, having shome for five seasons as the Grey's second sacker.

The Old Lebanon Team

The Old Lebanon Team

The franchise of the Lebanon (Pa.) Club of the outlaw Tri-State Baseball League has been transferred to Coatsville (Pa.) and when Manager Kelchner of the Lebanon Club disposed of the franchise the releases of Dick Tibbits and some other Lebanon stars went along as part of the bargain. Dick finished the season at Lebanon after jumping from McDermott's Fall River team and manager J. Percy Stetler of the new Coatsville Club is now anxious to have Dick play with his outlaw aggregation, this year. Tibbits has been given a good offer by manager Stetler and now has it under consideration along with some others. He realizes that there is nothing like being strong with the organized ball owners but he also likes the looks of the fancy outlaw salary-reminding one of the class of men whose foresight does not reach far enough into the future. The Coatsville Club has already signed First baseman Joe McDonald, Short stop Al Mouch. Pitcher Joe Meyers and Catcher Sweeney.

A special to Sporting Life states that Second baseman Rotherwel has signed with the Coatsville Club.

League Games Postponed.

It is now becoming evident that the Candle Pin League schedule is too much cramped up. Instead of having six games per week they should really not have been more than half that number. This would have brought the close of the season about May 24th. The games for tonight and tomorrow might have been postponed.

FERROZONE

Gave Me New Vital Energy-Nourished Me Back to Good Health.

Perhaps you are in poor health?
But work must be done, and there is no chance to take a rest.

Never mind the rest—it won't be necessary if you use Ferrozone. It builds up the system, enriches the blood, strengthens the nerves, makes you feel like new at once. No medicine in the world is so powerful in restoring health writes C. P. Sommerville of Weymouth.

"I was weak and miserable.

"I tolled too hard at my business and broke down.

"My nerves went to smash, I couldn't sleep, and simply had to give up-everything.

"Did Ferrozone help me?

"Well, I think it saved my life. It gave new vital energy, nourished me back to permanent good health. No better tonic is made than Ferrozone.

All physicians recommend Ferrozone because it is absolutely certain to give health to those that use it. 50c. per box or six boxes for \$2.50 at all dealers in medicine or Polson & Co., Hartford, Conn., U. S. A., and Kingston. Ont.

CATCHING COLL.

The really important question is, In what does predisposition consist? what does predisposition consist? We talk of a man "catching a cold." But it would be more correct and equally graphic to say that the cold has "caught" the man, for it does catch him unawares and often when he had a considerable of the constraints of the constraints. least anticipates it. But no cold eve caught any man unless he had first prepared the ground for it by a careful process of fertilization. No amount of mere exposure to a low

temperature alone will cause a "cold" in a perfectly healthy man in whom the product of wear and tear of nerve and muscle with adequate excretion of and muscle with adequate excretion of waste products on the one side is evenly balanced by food supply and exercise on the ofter. Where this equilibrium does not exist such exposure then operates as a "chill."

Now, who are the people who are liable to catch cold? Not those whose dietary is so carefully adjusted to the

dietary is so carefully adjusted to the work they have to do that there is no opportunity for the accumulation of un-used foodstuffs in their tissues, but those who in the better fed ranks o society eat and drink more than they need to meet the daily requirements of their hodily activity and are thus continually storing up in their tissues and excreting organs material which if approximation and the storing organs are the storing organs. excreting organs material which if ap-propriately used would form valuable ammunition for the development of energy either of body or mind, but which when stored beyond a certain point has to be blown off in a "cold" or a "billious attack" or in a more pro-nounced fit of gout.—Dr. Francis T. Bond, a London Expert.

Hearts Attuned to Joy

Hearts Attuned to Joy.

There is a lot of fun in the world if
we keep our fun eyes open and our
hearts attuned to joy. Did you ever
note how your very soul lighted and
buoyed by the mere mental turning of
self to the gladsome side? Teach your thoughts to run in a channel bathed in thoughts to run in a channel bathed in the sunlight of good cheer. Dwell upon the flowers that grow beside the road rather than the dust upon the turnpike. Laughter and good cheer lighten many a burden and make the tedious way a ramble in a woodland path. Wake up to the delightfulness of the birds sweet melodies. Sing as you travel or your melodies. Sing as you travel on your way, and God's eternal morning will dawn upon you when life's tempestuous voyage will for you have ended.

Nine Nations

Now Use Liquozone. Won't You Try It-Free?

Millions of people, of nine different nations, are constant users of Liquo-zone. Some are using it to get well; some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere; your neighbors and friends are among them. And half the people you meet—wherever you rare—know some-one whom Liquozone has cured.

If you need help, please ask some of these users what Liquozone does, then let us buy you a full-size bottle to try.

Liquozone has, for more than 20
years, been the constant subject of
scientific and chemical research. It is
not made by compounding drugs, nor
with alcohol. Its virtues are derived,
solely from gas—largely oxygen gas—
by a process requiring immense apparatus and 14 days' time. The result is
